Giller Prize–winner M. G. Vassanji gives us a powerfully emotional novel of love and loss, of an African/Indian man who returns to the town of his birth in search of the girl he once loved—and the sense of self that has always eluded him.

Kamal Punja is a physician who has lived in Canada for the past forty years, but whom we first meet in a Tanzanian hospital. He is delirious and says he has been poisoned with hallucinogens. But when Kamal finds a curious and sympathetic ear in a local publisher, his ravings begin to reveal a tale of extraordinary pathos, complexity, and mystery. Raised by his African mother, deserted when he was four by his Indian father, married to a woman of Indian heritage, and the father of two wholly Westernized children, Kamal had reached a stage of both undreamed-of material success and disintegrating personal ties. Then, suddenly, he “stepped off the treadmill, allowed an old regret to awaken,” and set off to find the girl he had known as a child, to finally keep his promise to her that he would return. The girl was Saida, granddaughter of a great, beloved Swahili poet. Kamal and Saida were constant companions—he teaching her English and arithmetic, she teaching him Arabic script and Swahili poetry—and in his child’s mind, she was his future wife. Until, when he was eleven, his mother sent him to the capital, Dar es Salaam, to live with his father’s relatives, to “become an Indian” and thus secure his future. Now Kamal is journeying back to the village he left, into the maze of his long-unresolved mixed-race identity and the nightmarish legacy of his broken promise to Saida. At once dramatic, searching, and intelligent, *The Magic of Saida* moves deftly between the past and present, painting both an intimate picture of passion and betrayal and a broad canvas of political promise and failure in contemporary Africa. It is a timeless story—and a story very much of our own time.

Copley's Essentials of Accounting for Governmental and Not-for-Profit Organizations, 13e is best suited for those professors whose objective is to provide more concise coverage than what is available in larger texts. The main focus of this text is on the preparation of external financial statements which is a challenge for governmental reporting. The approach in this edition is similar to that used in practice. Specifically, day to day events are recorded at the fund level using the basis of accounting for fund financial statements. Governmental activities are recorded using the modified accrual basis. The fund-basis statements are then used as input in the preparation of government-wide statements. The preparation of government-wide statements is presented in an Excel worksheet. NEW for the 13th edition is McGraw-Hill Connect, a digital teaching and learning environment that saves students and instructors time while improving performance over a variety of critical outcomes.

This textbook incorporates the newest technology to facilitate the learning process, saving valuable time for you and your students. The fourth edition continues to provide the core topics for the course, highlighting personal examples to help students relate to the material.

Financial accounting is undergoing a period of unprecedented change. The FASB and IASB have been working together to issue converged accounting standards that will dramatically change key reporting areas, and more generally have sought to converge accounting standards over time. In late 2011, the SEC will announce its decision on whether large public companies in the U.S. will be able to choose whether to report under U.S. GAAP or IFRS or if all companies are anticipated to be reporting under IFRS in the near future. So, while there currently is considerable overlap between U.S. GAAP and IFRS, and that overlap is increasing as convergence continues, important differences remain. To help instructors deal with the challenging environment, the Spiceland team is committed to providing current, comprehensive and clear coverage of intermediate accounting. The 7th edition reflects this commitment with the following innovations.
