This troubadour life is only for the fiercest hearts, only for those vessels that can be broken to smithereens and still keep beating out the rhythm for a new song. Last Chance Texaco is the first ever no-holds-barred account of the life of two-time Grammy Award-winner Rickie Lee Jones in her own words. It is a tale of desperate chances and impossible triumphs, an adventure story of a girl who beat the odds and grew up to become one of the most legendary artists of her time, turning adversity and hopelessness into timeless music. With candor and lyricism, the "Duchess of Coolsville" (Time) takes us on a singular journey through her nomadic childhood, to her years as a teenage runaway, through her legendary love affair with Tom Waits and ultimately her longevity as the hardest working woman in rock and roll. Rickie Lee's stories are rich with the infamous characters of her early songs – "Chuck-E's in Love," "Weasel and the White Boys Cool," "Danny's All-Star Joint," and "Easy Money"— but long before her notoriety in show business, there was a vaudevillian cast of hitchhikers, bank robbers, jail breaks, drug mules, a pimp with a heart of gold and tales of her fabled ancestors. In this tender and intimate memoir by one of the most remarkable, trailblazing, and tenacious women in music are never-before-told stories of the girl in the raspberry beret, a singer-songwriter whose music defied categorization and inspired American pop culture for decades.

The "Danish coziness" philosophy is fast becoming the new "French living" in terms of aspirational lifestyle books and blogs. There are countless viral articles comparing the happiness levels of Americans versus Danes. Their homes are more homey; their people are more cheerful. It's an attitude that defies definition, but there is a name for this slow-moving, stress-free mindset: hygge (pronounced "hoo-ga"). Hygge values the idea of cherishing yourself: candlelight, bakeries, and dinner with friends; a celebration of experiences over possessions, as well as being kind to yourself and treasuring a sense of community. How to Hygge by chef and author Signe Johansen is a fresh, informative, lighthearted, fully illustrated how-to guide to hygge. It's a combination of recipes, helpful tips for cozy living at home, and cabin porn: essential elements of living the Danish way—which, incidentally, encourages a daily dose of "healthy hedonism." Who can resist that?

"I am doomed to remember a boy with a wrecked voice—not because of his voice, or because he was the smallest person I ever knew, or even because he was the instrument of my mother's death, but because he was the reason I believe in God; I am a Christian because of Owen Meany." In the summer of 1953, two eleven-year-old boys—best friends—are playing in a Little League baseball game in Gravesend, New Hampshire. One of the boys hits a foul ball that kills the other boy's mother. The boy who hits the ball doesn't believe in accidents; Owen Meany believes he is God's instrument. POETRY BY ME AND MY FAMILY About ART, SCIENCE, LOVE & LIFE These poems are fun to read, and you learn something new about art, science, love and life. They come out of the love I have for my wife, Margaret, our children, and our love for each other. They awaken something in your heart that is beyond knowledge, and they spiritually refresh, because the poems say tangibly what we all feel intangibly to give finite form to the infinite. The will to create and the will to love are one. And so, poems make love visible, which uplifts and heals, because in the presence of love everything is healed. The mind seeks truth, the heart seeks love, and the spirit seeks goodness and God. This creative spirit of love,

therefore, shows us the face of God.

A WW II and Korean War pilot and hero, a patriotic, middle American farmer who'd trusted his government with two sons in Vietnam, and been betrayed in that, after having his farm largely controlled by his government all his life, is in jeopardy of losing his homestead of 150 years. After his death, his sons scramble to hold onto the farm and make sense of all this and each other. A seed that Deke, the middle of three sons, and Barrett, his friend had brought back from Vietnam seventeen years earlier and kept pure, becomes a means of saving the farm, but in the process the hallucinogen from the seed begins to warn them of some imminent catastrophe through raining creatures and Barrett's visions. The plant the government's trying to suppress brings them signs and warnings about what their government's doing, as Barrett begins seeing Vietnamese spirits or "visitors" in the woods and fields when he ingests the stuff. Creature Storms is a rawly told and original work, a grounded human story of three brothers and a blood brother, their love for and struggle with each other, their country, and the sacrifices they make to hold onto their land which they had already risked their lives in war to protect. Politically timely, Creature Storms unfolds on a number of dramatic levels that build into an apocalyptic ending.

This explosive second novel deals with some of the uncomfortable legacies of the 1960's on today's youth, from a fresh and contemporary perspective. It is a rite of passage from which there is ultimately no escape.

Alice in Chains was the first of grunge's big four – ahead of Nirvana, Pearl Jam, and Soundgarden – to get a gold record and achieve national recognition. With the charismatic Layne Staley behind the microphone, they became one of the most influential and successful bands to come out of the Seattle music scene. But as the band got bigger, so did its problems. Acclaimed journalist David de Sola follows the members from their inauspicious beginnings at a warehouse under the Ballard Bridge through the history of the band, charting: The local hair metal scene in Seattle during the 1980s. How drugs nearly destroyed the band and claimed the lives of Staley and founding bassist Mike Starr. Jerry Cantrell's solo career and Mike Starr's life after being fired from the band. The band's resurrection with William DuVall, the Atlanta singer/guitarist who stepped into Layne Staley's shoes. What do people, puppets, mannequins, and trees have in common? Don't answer with the obvious, you may be barking up the wrong tree! People don't grow on trees, mannequins don't have fingerprints, and puppets don't think... or do they? Are they a whimsical picture of us or of them? Be careful what you think, as fast as people come into this world they disappear from it with no precise explanation. It is the belief of a few that those thoughts become manifested for the gain of someone, or something evil. To shed light and bring this enigma to an end, it will take someone with a mind not gifted to discover the truth but a heart that is. A boy chosen-as empty headed as a puppet, strong and unyielding as an oak, with the heart of a mannequin to change us back into our whimsical self. Ronald Silva is a pastry chef. Who being born in Fort Wayne, Indiana, was derth of the things others had, living in an environment with no mother or father for love or guidance. Barely adequate philosophy professor Legare Hume has a mind-body problem. No matter how far he goes, no matter how hard he thinks, he can't escape the world he lives in. On the run from his wife Tally, Legare joins brilliant but exceptionally awkward colleague Saul Grossman to attend the American Philosophical Association's Charleston, South Carolina conference, where worlds and walks of life collide in a strange and satirical amalgamation that can only be described as reality. Legare's mission is simple enough: put up with the conference, read a paper he never thought anyone would want to hear, receive the tenure he isn't sure he wants, and return, or not, to the wife who nearly killed him before he left. But his plans are hijacked by a botched hotel reservation and the all-too-convenient presence of the Southern family Legare has worked very hard all his adult life to avoid. Hume's Fork is a brilliantly satirical and philosophical novel, every bit as funny as it is intelligent a true original. Legare's conflict Hume's fork, if you will becomes the reader's, for all worlds are one, and nothing can truly be separate from everything else. "Make something new, Derrida says, that is how deconstruction happens. This book exemplifies such a move in the way it addresses the stuck places of practitioner oriented research with its rational, intentional agents seeking to empower both teacher self and students. An example of putting postmodernism to work in educational research, the book asks hard questions about necessary complicities.....rounded in nursery teaching and math education, it attempts to develop a better language toward a more complicated understanding of what knowledge means.... without reverting to the quick and narrow scientism of the past." - Patti Lather, Ohio State University * How can we move forward from or develop traditional approaches to Action Research which have dominated teacher research for many years now? * How can teachers work at improving their teaching when there are so many different understandings of what education is trying to achieve? * In which ways can post-structuralism, which has had such a

major impact in other disciplines, offer practical support to teachers developing their own professional practices? A premise of much teacher research is that reflection on practice can lead to a development of that practice. Such reflection, it is purported, enables the practitioner in organising the complexity of the teaching situation, with a particular emphasis on how 'monitoring of change' can be converted to 'control of change'. This book questions the notion of construing developing practice as 'aiming for an ideal' and suggests that such a pursuit has a questionable track record. The very desire for control, and the difficulties encountered in trying to document it can cloud our vision from the very complexities we seek to capture. The book offers detailed discussion of teacher research enquiries carried out in the context of masters and doctoral degrees. It focuses in particular on how the reflective writing generated by the teacher might build towards an assertion of professional identity through which professional demands are mediated.

"Scenes from Canadian plays for two to six actors. Thirty-two excellent opportunities for young thespians these are texts which I would certainly use with my own senior students of dramatic arts." Reviewing Librarian
