Carmen sits alone with her late husband, Mario, for the last time and looks back on their marriage and years together. Developed directly with the IB to be fully integrated with the revised MYP Language Acquisition framework, for first teaching in 2020. This comprehensive, inquiry-based resource equips learners to acquire and practice essential language skills while developing wider conceptual and contextual awareness. An inquiry-led, concept-based approach applies key and related concepts to relevant learning material, helping you fully deliver the MYP approach and build meaningful conceptual connections. Fully comprehensive, the resource addresses all the topics suggested in the MYP Language Acquisition Framework to help learners progress into the Diploma Programme. (abridged and revised) This reference grammar offers intermediate and advanced students a reasonably comprehensive guide to the morphology and syntax of educated speech and plain prose in Spain and Latin America at the end of the twentieth century. Spanish is the main, usually the sole official language of twenty-one countries,} and it is set fair to overtake English by the year 2000 in numbers 2 of native speakers. This vast geographical and political diversity ensures that Spanish is a good deal less unified than French, German or even English, the latter more or less internationally standardized according to either American or British norms. Until the 1960s, the criteria of internationally correct Spanish were dictated by the Real Academia Espanola, but the prestige of this institution has now sunk so low that its most solemn decrees are hardly taken seriously - witness the fate of the spelling reforms listed in the Nuevas normas de prosodia y ortograjia, which were

supposed to come into force in all Spanish-speaking countries in 1959 and, nearly forty years later, are still selectively ignored by publishers and literate persons everywhere. The fact is that in Spanish 'correctness' is nowadays decided, as it is in all living languages, by the consensus of native speakers; but consensus about linguistic usage is obviously difficult to achieve between more than twenty independent, widely scattered and sometimes mutually hostile countries. Peninsular Spanish is itself in flux. IB Prepared resources are developed directly with the IB to provide the most up-to-date, authentic and authoritative guidance on DP assessment. Speaking is a central yet complex area of language acquisition. The assessment of this crucial skill is equally complex because of its interactive nature. This book takes teachers and language testers through the research on the assessment of speaking as well as through current tests of speaking. The book then guides language testers through the stages of test tasks, rating practices and design. The testing and assessment of language competence continues to be a much debated issue in foreign language teaching and research. This book is the first one to address the testing of four important dimensions of foreign language education which have been left largely unconsidered: learner autonomy, intercultural competence, literature and literary competence, and the integration of content and language learning. Each area is considered through a theoretical framework, followed by two empirical studies, raising questions of importance to all language teachers: How can one test literary competence? Can intercultural competence be measured? What about the integrated assessment of content-and-language in CLIL and teaching? Is progress in autonomous learning skill gaugeable? The book constitutes essential reading for anyone interested in the testing and assessment of seemingly largely untestable aspects of foreign language competence. "The title of this book is well chosen. Despite the apparent oxymoron, this collection of

papers succeeds in addressing important issues of educational policy and theory with the precision born of empirical work combined with discussion of principles. This book will open new options for testers, for teachers and for those who make policy decisions." Michael Byram, School of Education, University of Durham, UK

The CEFR Companion volume broadens the scope of language education. It reflects academic and societal developments since the publication of the Common European Framework of Reference for Languages (CEFR) and updates the 2001 version. It owes much to the contributions of members of the language teaching profession across Europe and beyond. This volume contains: ? an explanation of the key aspects of the CEFR for teaching and learning; ? a complete set of updated CEFR descriptors that replaces the 2001 set with: - modality-inclusive and gender-neutral descriptors; - added detail on listening and reading; - a new Pre-A1 level, plus enriched description at A1 and C levels; - a replacement scale for phonological competence; - new scales for mediation, online interaction and plurilingual/pluricultural competence; - new scales for sign language competence; ? a short report on the four-year development, validation and consultation processes. The CEFR Companion volume represents another step in a process of engagement with language education that has been pursued by the Council of Europe since 1971 and which seeks to: ? promote and support the learning and teaching of modern languages; ? enhance intercultural dialogue, and thus mutual understanding, social cohesion and democracy; ? protect linguistic and cultural diversity in Europe; and ? promote the right to quality education for all.

Despite the Covid-19 pandemic, the EUROCALL society succeeded in holding the 28th EUROCALL conference, EUROCALL2020, on 20-21 August as an online, two-day gathering. The transition process required to make this happen was demanding and insightful for everyone involved, and, in many ways, a logical consequence of the core content and purpose of EUROCALL. Who would be better suited to transform an onsite conference into an online event than EUROCALL? CALL for widening participation was this year's theme. We welcomed contributions from both theoretical and practical perspectives in relation to the many forms and contexts of CALL. We particularly welcomed longitudinal studies or studies that revisited earlier studies. The academic committee accepted 300 abstracts for paper presentations, symposia, workshops, and posters under this theme; 57 short papers are published in this volume. We hope you will enjoy reading this volume, the first one to reflect a one hundred percent online EUROCALL conference/Online Gathering. The IB English Ab Initio Student Portfolio is an interactive practice and revision resource that helps the students prepare for the four assessment components of this language acquisition course. With the help of 321 questions and 321 answer tables that cover the complete Ab Initio course, the students will be able to fully develop their personalized answers and thus establish an organic Portfolio of their learning. The answer tables in the Portfolio apply to reading, writing, listening and speaking, and the Portfolio is also supported by online resources on the author's personal website. The IB English Ab Initio Student Portfolio is best used together with the Language Ab Initio Student Workbook but can also be used independently, both in the classroom

and at home.

Intriguing. Absorbing. A truly eye-opening glimpse into the world's most mysterious and fascinating country. North Korea is a land of unrivalled natural beauty with more than 5,000 years of history and culture. From the top of mythical

Mount Paekdu to the lush valleys and the incredible rock formations of stunning Mount Kumgang, and from the white beaches of the East Sea to the hidden getaways on the West coast, the DPRK's natural attractions are now finally starting to be recognized. This resilient land has lived through many periods of historical significance, yet its people have always maintained their dignity and humility. The veil that has until now shrouded places such as Pyongyang, Mount Myohyang, Kuwol and Nampo has been lifted, and the imagery that is being revealed will astonish the mind of even the most experienced travellers. The power of each image carefully challenges the way in which we look at this land and its people. For many of us, this is the first time we see the North Korean people as they truly are. The only question remaining is, why was such an insightful photographic record not published much earlier ?

Federal Democracies examines the evolution of the relationship between federalism and democracy and features case studies on USA, Russia, Switzerland, Spain, Germany, Canada and the European Union.

Ronny Mintjens, linguist, teacher, and professional football coach, needed to find a way to really see the world, something deeper than mere tourism. Leaving the comfort and familiarity of his own European life, Mintjens decided to pursue his love of professional sports and exotic cultures all at once. He began coaching football at clubs all across Africa. Beginning in southern and then moving on to eastern Africa, Mintjens soon realized that there was more to professional football than simply training and winning matches. Trying to find ways to make a true mark on the game, Mintjens travelled from one club to the next. Each club, from Mount Kilimanjaro and the Serengeti Plains to Table Mountain and the Cape of Good Hope, held its own surprises and boasted its own strengths and weaknesses. In the end, each had its

own lessons on the intricate weaving of African culture and heritage. Leave your life behind and dive into the exotic world of African sports with this fascinating tale of an ambitious foreigner and his deep journey to understand football as a way of life in the African football club. In this relatively unknown part of the world, football is certainly more than a game.
