Show biz memoir at its name-dropping, bridge-burning, profane best: the music industry's most outspoken, outrageous, and phenomenally successful executive delivers a rollicking memoir of pop music's heyday. During the 1970s and '80s the music business was dominated by a few major labels and artists such as Michael Jackson, Bruce Springsteen, the Rolling Stones, Bob Dylan, Billy Joel, Paul Simon, Barbra Streisand and James Taylor. They were all under contract to CBS Records, making it the most successful label of the era. And, as the company's president, Walter Yetnikoff was the ruling monarch. He was also the most flamboyant, volatile and controversial personality to emerge from an industry and era defined by sex, drugs and debauchery. Having risen from working-class Brooklyn and the legal department of CBS, Yetnikoff, who freely admitted to being tone deaf, was an unlikely label head. But he had an uncanny knack for fostering talent and intimidating rivals with his appalling behavior—usually fueled by an explosive combination of cocaine and alcohol. His tantrums, appetite for mind-altering substances and sexual exploits were legendary. In Japan to meet the Sony executives who acquired CBS during his tenure, Walter was assigned a minder who confined him to a hotel room. True to form, Walter raided the minibar, got blasted and, seeing no other means of escape, opened a hotel window and vented his rage by literally howling at the moon. In *Howling at the Moon*, Yetnikoff traces his journey as he climbed the corporate mountain, danced on its summit and crashed and burned. We see how Walter became the father-confessor to Michael Jackson as the King of Pop reconstructed his face and agonized over his image while constructing *Thriller* (and how, after it won seven Grammys, Jackson made the preposterous demand that Walter take producer Quincy Jones's name off the album); we see Walter, in maniacal pursuit of a contract, chase the Rolling Stones around the world and nearly come to blows with Mick Jagger in the process; we get the tale of how Walter and Marvin Gaye—fresh from the success of "Sexual Healing"—share the same woman, and of how Walter bonds with Bob Dylan because of their mutual Jewishness. At the same time we witness Yetnikoff's clashes with Barry Diller, David Geffen, Tommy Mottola, Allen Grubman and a host of others. Seemingly, the more Yetnikoff feeds his cravings for power, sex, liquor

and cocaine, the more profitable CBS becomes—from \$485 million to well over \$2 billion—until he finally succumbs, ironically, not to substances, but to a corporate coup. Reflecting on the sinister cycle that left his career in tatters and CBS flush with cash, Yetnikoff emerges with a hunger for redemption and a new reverence for his working-class Brooklyn roots. Ruthlessly candid, uproariously hilarious and compulsively readable, *Howling at the Moon* is a blistering *You'll Never Eat Lunch in this Town Again* of the music industry.

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

Lemon-Aid New and Used Cars and Trucks 1990-2015 steers the confused and anxious buyer through the purchase of new and used vehicles unlike any other car-and-truck book on the market. "Dr. Phil," Canada's best-known automotive expert

for more than 42 years, pulls no punches.

## **Lemon-Aid Used Cars and Trucks 2012-2013**

Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.

A time-tested text, George Felton's Advertising: Concept and Copy, Second Edition, is an innovative approach to advertising creativity. It covers the entire conceptual process, from developing smart strategy to executing it with strong ads from what to say to how to say it. Part 1, Strategies, operates on the premise that the idea beneath an ad's surface determines its success. This first section shows how to research products, understand consumer behavior, analyze audiences, and navigate marketplace realities, then how to write creative briefs that focus this strategic analysis into specific advertising objectives. Part 2, Executions, explains how to put strategies into play. It discusses the tools at a copywriter's command, from the elements of print advertising—headlines, visuals, body copy—to the wide variety of media and advertising genres available to advertisers. But creating great executions is never easy. So Part 3, the Toolbox, gives advice about how to think creatively, then presents an array of problem-solving tools, a series of techniques that advertisers have used repeatedly to produce exceptional work. In brief, this book shows how to find strong selling ideas, then how to express them in fresh, memorable, persuasive ways. Over 200 ads, many in color, demonstrate the strong thinking and writing that underlie the best advertising. This Second Edition features new sections on guerrilla advertising, interactive media, international and multicultural advertising, and postmodern advertising, as well as more material on the art of headlines, theme lines, slogans, and naming. Advertising: Concept and Copy is the most comprehensive text in its field, combining substantial discussion of both strategy and technique with an emphasis on the craft of writing not found elsewhere. It is truly a writer's copywriting text.

"In recent years the debate on multiculturalism in the UK and other Western societies has focused principally on Islam, and the specific 'problems' said to be posed by Muslims have been invoked to justify the claim that multiculturalism has failed. That claim is opened to scrutiny and challenged in this unique collection through a series of explorations of specific issues and controversies - including the question of the veil, crime, political Islam, the role of Muslim women, sexuality and the Danish cartoons affair - and through more general reflections on the nature of multiculturalism. By exploring the nature of cultural differences and sensitivities and examining the way conflicts have played out, this challenging book makes a wide-ranging contribution to debate and a more constructive inter-cultural engagement. The contributors draw upon the disciplines of social science, ethics, theology, philosophy and education to examine the nature of the issues and flashpoints and to draw out implications for theory, policy and practice." --from back cover.

The first collection of poems translated into English from the forbidden volume of the Divan of Rumi • Presents Rumi's most heretical and free-form poems • Includes introductions and commentary that provide both 13th-century context and modern interpretation After his overwhelming and life-altering encounters with Shams of Tabriz, Rumi, the great thirteenth-century mystic, poet, and originator of the whirling dervishes, let go of many of the precepts of formal religion, insisting that only a complete personal dissolving into the larger energies of God could provide the satisfaction that the heart so desperately seeks. He began to speak spontaneously in the language of poetry, and his followers compiled his 44,000 verses into 23 volumes, collectively called the Divan. When Nevit Ergin decided to translate the Divan of Rumi into English, he enlisted the help of the Turkish government, which was happy to participate. The first 22 volumes were published without difficulty, but the government withdrew its support and refused to participate in the publication of the final volume due to its openly heretical nature. Now, in *The Forbidden Rumi*, Will Johnson and Nevit Ergin present for the first time in English Rumi's poems from this forbidden volume. The collection is grouped into three sections: songs to Shams and God, songs of heresy, and songs of advice and admonition. In them Rumi explains that in order to transform our consciousness, we must let go of ingrained habits and embrace new ones. In short, we must become heretics.
