Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and

repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

### **A Slice of the Pie**

How does a suburban pizza joint end up profiled on national magazine covers and network TV news? (Hint: The secret is not in the sauce.) When Nick Sarillo decided to open a family-friendly pizza restaurant in the suburbs of Chicago, people thought he was nuts. Having worked as a carpenter for much of his adult life, he lacked any formal experience in restaurants or in managing a small business. Everyone told him no one else would ever care about his place the way he did. They warned he'd have to work 20-hour-days and monitor every employee just to stay in business. But Sarillo saw things differently, and set out to run his business in a radically different way. Today Nick's Pizza & Pub is one of the top ten busiest independent pizza restaurants in the country, with two locations that gross about

six times the revenue of the typical pizza restaurant. And in an industry where most employees leave within less than a year, Nick's annual turnover rate is less than 20 percent. How did he do it? The secret lies in Nick's purpose-driven culture, in which every employee—from the waiters to the chefs to the managers—is equipped with the tools necessary to do their jobs while also advancing the company's overall mission. The result is higher sales, a dedicated team, and a big little business that is beloved by the entire community. In *A Slice of the Pie* Sarillo tells the story of how he built his extraordinary culture and shows how anyone can follow his methods. For instance, Nick's managers engage the staff by tracking and rewarding unusual metrics, such as how many guests request a particular server or the average check amount of each carryout host. Likewise, team members of all ages and levels of experience are encouraged to express themselves, acquire new skills, and suggest ideas to help the business grow. *A Slice of the Pie* will help transform even the smallest, simplest, and most ordinary business into a successful, high-performance organization.

Jalil Muntaqim is a former member of the Black Panther Party and the Black Liberation Army. For over forty years, Jalil has been a political prisoner, and one of the New York Three (NY3), in retaliation for his political activism. *Escaping the Prism Fade to Black* is a collection of Jalil's poetry and essays, written from behind the bars of Attica prison. Combining the personal and the political, these texts afford readers with a rare opportunity to get to know a man who has spent most of his life-over forty years-behind bars for his involvement in the Black Liberation Movement of the 1960s and early 1970s. Jalil's poetry deals with a range of themes-spirituality, history, and the struggle for justice; depression, humor, and sexual desire; the pain and loneliness of imprisonment, the ongoing racist oppression of New Afrikan people in the United States, and the need to find meaning in one's life. At the same time, his political essays show him to be as eager as ever to intervene in and grapple with the events of today, always with an eye to concretely improving the lives of the oppressed. *Escaping the Prism Fade to Black* also

includes an extensive examination of the U.S. government's war against the Black Liberation Army in general, and Jalil and the New York Three in particular, by renowned scholar-activist Ward Churchill. In this highly detailed essay, "The Other Kind: On the Integrity, Consistency, and Humanity of Jalil Abdul Muntaqim," Churchill traces this story from the FBI's murderous COINTELPRO repression of the Black Panther Party, through the NEWKILL operation which led to the NY3's incarceration, to the more recent Phoenix Taskforce which orchestrated the re-prosecution of Jalil and other veteran Black activists, in the case of the San Francisco 8. With illustrations by revolutionary prisoner-artists Zolo Agona Azania and Kevin "Rashid" Johnson, as well as various outside artist-activists.

Phospholipid technology and applications is an essential reference for technologists developing food and cosmetics products, scientists researching phospholipids in biological and food systems, technologists in fats and oils refining, and scientists developing drugs and drug delivery systems and carriers. The major source of phospholipids is the lecithin recovered during degumming of vegetable oils, particularly soybean oil. This crude material finds uses in its own right but can be purified through a series of processes which eventually lead to individual phospholipid classes such as phosphatidylcholines. It is widely accepted that oil and water do not mix but there are several areas in science and technology where these two distinct phases must coexist in stable emulsions. This is achieved by admixture of amphiphilic molecules of which the phospholipids are important natural examples. Today, phospholipids find many uses in the food industry and in other industries which exploit the amphiphilic nature of these compounds. Further,

there are now important procedures by which their amphiphilicity can be optimized for different uses. The early chapters in this book are devoted to the more common glycerol-based phospholipids and cover their structure, source, composition, modification by chemical and enzymatic methods, their physical, chemical, and nutritional properties, and their major uses. The final chapter is devoted to another kind of phospholipid, the sphingolipids, in which there is a growing interest.

“My book ... details the living hell that was my experience with concussions. The majority of this story was kept from even my closest relationships. It wasn't easy, but it's time to tell it.” – Dale Jr. It was a seemingly minor crash at Michigan International Speedway in June 2016 that ended the day early for Dale Earnhardt Jr. What he didn't know was that it would also end his driving for the year. He'd dealt with concussions before, but concussions are like snowflakes—no two are the same. And recovery can be brutal—and lengthy. As a third-generation driver in a family forever connected to the sport of stock-car racing, how could Dale Earnhardt Jr. sit on the sidelines and watch everyone else take their laps? It was one of the

toughest seasons of his life—one that changed him forever. In this gripping narrative from one of professional sports' most beloved figures, Dale Jr. shares stories from his journey: how his career and his injury have transformed him, how he made the decision to retire at the end of the 2017 season after eighteen years behind the wheel, and what lies ahead for him in the next chapter of his life. There's no second-guessing and no regrets from Driver #88. He simply wants to go out on his own terms and make the rest of his life off the racetrack count. Junior says, "I don't want these last races to be just about me but rather the people who made my success possible: my fans, the folks who pack the grandstands rain or shine, my teammates and crew members through the years, industry colleagues, track volunteers, friends, family, sponsors. They've all played a role. I couldn't have done it without them."
