The Closing of the American Border

Visions of the Irish Dream assembles essays that examine the elusive dream of the Irish and Irish Americans, looking at aspirations of 19th-century emigrants to Canada and the United States, political and educational goals of the Irish, historic trauma, contemporary xenophobia, and artists' renditions of "Irishness." Whether the dreams are fulfilled or deferred, they all strive to come to terms with what it means to be Irish; sometimes the definition involves bringing a piece of the old country with you, buying facsimiles of "genuine Irish goods," or redefining self in a way that frees Ireland of the colonial model. This study explores the conflicted and shifting visions of the people who inhabit or have left an isolated island that has moved from a search for independence to integration into a European union. From discussion of the politics of translation in Ferguson and Mangan to the establishment of the National schools, the movement of the Celts from continental Europe as evidenced in Joyce to the transatlantic flight of the Irish to the Americas in a drama by Nicola McCartney, and the re-invention of the feminine force in the writings of novelists Jennifer Johnston and Roddy Doyle to the feminine voice expressed in the work of poet Eiléan NíChuilleán, the collection underscores the significance of the dream in Irish history and the arts.

Beyond the Politics of Disappointment

All historians would agree that America is a nation of nations. But what does that mean in terms of the issues that have moved and shaped us as a people? Contemporary concerns such as bilingualism, incorporation/assimilation, dual identity, ethnic politics, quotas and affirmative action, residential segregation, and the volume of immigration resonate with a past that has confronted variations of these modern issues. The Columbia Documentary History of Race and Ethnicity in America, written and compiled by a highly respected team of American historians under the editorship of Ronald Bayor, illuminates the myriad ways in which immigration, racial, and ethnic histories have shaped the contours of contemporary American society. This invaluable resource documents all eras of the American past, including black-white interactions and the broad spectrum of American attitudes and reactions concerning Native Americans, Irish Catholics, Mexican Americans, Jewish Americans, and other groups. Each of the eight chronological chapters contains a survey essay, an annotated bibliography, and 20 to 30 related public and private primary source documents, including manifestos, speeches, court cases, letters, memoirs, and much more. From the 1655 petition of Jewish merchants regarding the admission of Jews to the New Netherlands colony to an interview with a Chinese American worker regarding a 1938 strike in San Francisco, documents are drawn from a variety of sources and allow students and others direct access to our past. Selections include Powhatan to John Smith, 1609 Thomas Jefferson—"Notes on the State of Virginia" Petition of the Trustees of Congregation Shearith Israel, 1811 Bessie Conway or, The Irish Girl in America German Society in Chicago, Annual Report, 1857-1858. Beyond Ethnicity : Consent and Descent in American Culture

Nothing is "pure" in America, and, indeed, the rich ethnic mix that constitutes our society accounts for much of its amazing vitality. Werner Sollors's new book takes a wide-ranging look at the role of "ethnicity" in American literature and what that literature has said--and continues to say--about our diverse culture. Ethnic consciousness, he contends, is a constituent feature of modernism, not modernism's antithesis. Discussing works from every period of American history, Sollors focuses particularly on the tension between "descent" and "consent"--between the concern for one's racial, ethnic, and familial heritage and the conflicting desire to choose one's own destiny, even if that choice goes against one's heritage. Some of the stories Sollors examines are retellings of the biblical Exodus--stories in which Americans of the most diverse origins have painted their own histories as an escape from bondage or a search for a new Canaan. Other stories are "American-made" tales of melting-pot romance, which may either triumph in intermarriage, accompanied by new world symphonies, or end with the lovers' death. Still other stories concern voyages of self-discovery in which the hero attempts to steer a perilous course between stubborn traditionalism and total assimilation. And then there are the generational sagas, in which, as if by magic, the third generation emerges as the fulfillment of their forebears' dream. Citing examples that range from the writings of Cotton Mather to *Liquid Sky* (a "post-punk" science fiction film directed by a Russian emigre), Sollors shows how the creators of American culture have generally been attracted to what is most new and modern. About the Author: Werner Sollors is Chairman of the Afro-American Studies Department at Harvard University and the author of *Amiri Baraka: The Quest for a Populist Modernism*. A provocative and original look at "ethnicity" in American literature DT Covers stories from all periods of our nation's history DT Relates ethnic literature to the principle of literary modernism DT "Grave and hilarious, tender and merciless The book performs a public service."-Quentin Anderson

What Every American Should Know About American History

HAVE THE PULPIT IN THE JUDEA-CHRISTIAN CHURCH LOST ITS RELEVANCE?" Historical and contemporary evidence reveals there are more Christian Churches in the United States of America than any other nation, and there is a "pulpit" in each of these churches, but it evident the messages being preached from each Church is not the same as God has ordained. It is not that Americans do not know where the local churches are located, and what Jesus' Bride, the Judea-Christian Church was established by Him to be the "Salt" of the earth, that is seasoning power to encourage godly living, for this was demonstrated in living colors during 9-11-2000 during a vicious attack on our nation by our sworn enemy radical Islam; for three

months the local Judea-Christian churches were capacity filled ever Sunday morning for regular worship services. Criminal activity inside and outside the correction systems was reframed, but as soon as it was realized that America was not going to be destroyed in the foreseeable future, you guessed it, we returned to our corrupt and criminal conduct. As I travel our nation, I visit local Christian churches and here the men and women preaching from behind the "pulpit", but the messages being preached are not at all in many instances the message God has ordained for the healing our nation. What, Why, When, Where, and How did we allow false preaching to become acceptable from behind God's consecrated "pulpit" in the Judea-Christian Church? The results are NO JESUS CHRIST, NO CHRISTIAN CHURCH; NO CHRITIAN CHURCH, NO OBLIGATION TO GOD. The Judea-Christian communities have began to ignore the Holy Bible, God's inerrant Word, and is replaced with entertainment instead of worship and praise unto God, and the Word o God has been watered down to meet the standards of the world. It is imperative that the "pulpit" in the Judea-Christian Church return to preaching the gospel as God has ordained, for only the Word of God can change the heart-mind of men, women, boys, and girls from the flesh desires to the desires of the Holy Spirit.

The 1982 U. S. Supreme Court case of Plyler v. Doe, which made it possible for undocumented children to enroll in Texas public schools, was a watershed moment for immigrant rights in the United States. The Court struck down both a state statute denying funding for education to undocumented children and a municipal school district's attempt to charge an annual \$1,000 tuition fee for each undocumented student to compensate for the lost state funding. Yet while this case has not returned to the Supreme Court, it is frequently contested at the state and local level. In No Undocumented Child Left Behind, Michael A. Olivas tells a fascinating history of the landmark case, examining how, 30 years later, Plyler v. Doe continues to suffer from implementation issues and requires additional litigation and vigilance to enforce the ruling. He takes a comprehensive look at the legal regime it established regarding the education of undocumented school children, moves up through its implementation, including direct and indirect attacks on it, and closes with the ongoing, highly charged debates over the Development, Relief, and Education for Minors (DREAM) Act, which aims to give conditional citizenship to undocumented college students who graduated from US high schools and have been in the country for at least five years. Listen to Michael Olivas on WYPF 88.1 FM, as he takes a look back 30 years to the Supreme Court case that made it possible for undocumented children to enroll in public schools and the highly-charged political and legal battles that have ensued.

Alistair Cooke's America

American territorial borders have undergone significant and unparalleled changes in the last decade. They serve as a powerful and emotionally charged locus for American national identity that correlates with the historical idea of the frontier. But the concept of the frontier, so central to American identity throughout modern history, has all but disappeared in contemporary representation while the border has served to uncomfortably fill the void left in the spatial imagination of American culture. This book focuses on the shifting relationship between borders and frontiers in North America, specifically the ways in which they have been imaged and imagined since their formation in the 19th century and how tropes of visibility are central to their production and meaning. Rodney links ongoing discussions in political geography and visual culture in new ways to demonstrate how contemporary American borders exhibit security as a display strategy that is resisted and undermined through a variety of cultural practices.

The Huddled Masses

This book challenges the boundaries of postcolonial theory. Focusing on American literature, it examines how America's own imperial history has shaped the literature that has emerged from America, from Native American, Latino, Black and Asian-American writers. They contrast this with postcolonial literature from countries whose history has been shaped by American colonialism, from Canada, Central America and the Caribbean to Hawaii, Indonesia and Vietnam. It explores questions about national identity and multiculturalism: why, for instance, is a Native writer categorised within 'American literature' if writing on one side of the border, but as 'Canadian' and 'postcolonial' if writing on the other? This is a challenging collection that raises questions not only about the boundaries of postcolonial theory, but also about ethnicity and multiculturalism, and the impact of immigration and assimilation.

Hanciles does yeoman work in part one synthesizing studies on the impact of globalization, revealing that its outcomes will likely not be determined by the Euro-American heartlands that sparked this movement. Instead, in parts two he shows that migration in general is having an enormous effect on shaping a new world order, and in part three, "Mobile Faith," he advances the case for the migration of Christians as carrying within it the seeds of renewal for the whole church and also the potential to reshape church-state and religion and culture relations globally.

From Sicily to Elizabeth Street

Prolonged violence in the Horn of Africa, the northeastern corner of the continent, has led growing numbers of Ethiopians, Eritreans, and Somalis to flee to the United States. Despite the enmity created by centuries of conflict, they often find themselves living as neighbors in their adopted cities, with their children as classmates in school. In many ways, they are successfully navigating life in their new home; however, they continue to struggle to bridge old ethnic divisions and find salaam, or peace, with one another. News from home fuels historical grievances and perpetuates tensions within their communities, delaying acculturation, undermining attempts at reconciliation, and sabotaging the opportunity to reach the American Dream. In conversations with forty East African immigrants living in Seattle, Washington, and Portland, Oregon, Sandra Chait captures the immigrants' struggle for identity in the face of competing stories and documents how some individuals have been able to transcend the ghosts from the past and extend a tentative hand to their former enemies.

Crocodile Tears

More than 53 million Latinos now constitute the largest, fastest-growing, and most diverse minority group in the United States, and the nation's political future may well be shaped by Latinos' continuing political incorporation. In the 2012 election,

Latinos proved to be a critical voting bloc in both Presidential and Congressional races; this demographic will only become more important in future American elections. Using new evidence from the largest-ever scientific survey addressed exclusively to Latino/Hispanic respondents, *Latino Politics en Ciencia Política* explores political diversity within the Latino community, considering how intra-community differences influence political behavior and policy preferences. The editors and contributors, all noted scholars of race and politics, examine key issues of Latino politics in the contemporary United States: Latino/a identities (*latinidad*), transnationalism, acculturation, political community, and racial consciousness. The book contextualizes today's research within the history of Latino political studies, from the field's beginnings to the present, explaining how systematic analysis of Latino political behavior has over time become integral to the study of political science. *Latino Politics en Ciencia Política* is thus an ideal text for learning both the state of the field today, and key dimensions of Latino political attitudes. The Shaping of America

This volume provides a multidisciplinary approach to the examination of the social implications of immigration and chapters are addressed from three points of view - communication, environment-behavior, and architecture and design. From communications studies significant issues relate to nonverbal and interpersonal communication and mass media availability and use; from environment-behavior studies the authors examine culturally different perceptions of environment, issues of place attachment, and the impact of the built environment on communicative behavior; from architecture and design studies chapters address culturally defined needs and demands placed on built environment as worthy of inquiry. In their totality, these chapters reveal the variables that shape the immigrants' experience as manifested in the nature of social interaction and the environment in which such interaction occurs.

Boundaries on the Land, Boundaries in the Mind

Reveals nostalgia as a new way of maintaining Jewish continuity In 2007, the Museum at Eldridge Street opened at the site of a restored nineteenth-century synagogue originally built by some of the first Eastern European Jewish immigrants in New York City. Visitors to the museum are invited to stand along indentations on the floor where footprints of congregants past have worn down the soft pinewood. Here, many feel a palpable connection to the history surrounding them. Beyond the Synagogue argues that nostalgic activities such as visiting the Museum at Eldridge Street or eating traditional Jewish foods should be understood as American Jewish religious practices. In making the case that these practices are not just cultural, but are actually religious, Rachel B. Gross asserts that many prominent sociologists and historians have mistakenly concluded that American Judaism is in decline, and she contends that they are looking in the wrong places for Jewish religious activity. If they looked outside of traditional institutions and practices, such as attendance at synagogue or membership in Jewish Community Centers, they would see that the embrace of nostalgia provides evidence of an alternative, under-appreciated way of being Jewish and of maintaining Jewish continuity. Tracing American Jews' involvement in a broad array of ostensibly
