The First Conference on materials science and engineering, including physics, physical chemistry, condensed matter chemistry, and technology in general, was held in September 1995, in Herceg Novi. An initiative to establish Yugoslav Materials Research Society was born at the conference and, similar to other MR societies in the world, the programme was

made and objectives determined. The Yugoslav Materials Research Society (Yu-MRS), a nongovernment and non-profit scientific association, was founded in 1997 to promote multidisciplinary goal-oriented research in materials science and engineering. The main task and objective of the Society has been to encourage creativity in materials research and engineering to reach a harmonic coordination between achievements in this field in our country and analogous activities in the world with an aim to include our country into global international projects. Until 2003, Conferences were held every second year and then they grew into Annual Conferences that were traditionally held in Herceg Novi in September of every year. In 2007 Yu-MRS formed two new MRS: MRS-Serbia (official successor of Yu-MRS) and MRS-Montenegro (in founding). In 2008, MRS TAY Serbia became a member of FEMS (Federation of European Materials Societies).

CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences. The database provides abstracts of journal articles and citations to book reviews drawn from over 1,800+ serials publications, and also provides abstracts of books, book chapters, dissertations, and conference papers.

This Book of Abstracts is the main publication of the 60th Annual Meeting of the European Association for Animal Production (EAAP) held in Barcelona, Spain, on August 24-27 2009. It contains abstracts of the invited papers and contributed presentations. The meeting addressed subjects relating to science and innovation. Also, important problems were discussed during the sessions of EAAP's nine Commissions: Animal Genetics, Animal Nutrition, Animal Management and Health, Animal Physiology, Cattle Production, Sheep and Goat Production, Pig Production, Horse Production and Livestock Farming Systems. In addition joint sessions on topics interesting several disciplines and species were included in the programme.

The new edition of Psychiatric and Mental Health Nursing focuses on practice in mental health and psychiatric care integrating theory and the realities of practice. Mental wellness is featured as a concept, and the consideration of a range of psychosocial factors helps students contextualise mental illness and psychiatric disorders. The holistic approach helps the student and the beginning practitioner understand the complex causation of mental illness, its diagnosis, effective interventions and treatments, and the client's experience of mental illness.

III European Conference on Computational Mechanics: Solids, Structures and Coupled Problem in Engineering  
Computational Mechanics in Solid, Structures and Coupled Problems in Engineering is today a mature science with applications to major industrial projects. This book contains the edited version of the Abstracts of Plenary and Keynote Lectures and Papers, and a companion CD-ROM with the full-length papers, presented at the III European Conference on Computational Mechanics: Solids, Structures and Coupled Problems in Engineering (ECCM-2006), held in the National Laboratory of Civil Engineering, Lisbon, Portugal 5th - 8th June 2006. The book reflects the state-of-art of Computation Mechanics in Solids, Structures and Coupled Problems in Engineering and it includes contributions by the world most active researchers in this field.

## **The American Historical Association's Guide to Historical Literature**

Covering the full range of rehabilitation research with a clear, easy-to-understand approach, this resource will help you analyze and apply research to practice. *Rehabilitation Research: Principles and Applications* examines traditional experimental designs as well as nonexperimental and emerging approaches, including qualitative research, single-system design, outcomes research, and survey research. Clinical case studies and references will enhance your skills as a scientist-practitioner. Written by noted educators Russell Carter and Jay Lubinsky, this book emphasizes evidence-based practice within physical therapy, occupational therapy, and other rehabilitation professions. Discipline-specific examples are drawn from three major fields: physical therapy, occupational therapy, and speech-language pathology. Unique! Coverage of non-experimental research includes chapters on clinical case reports and qualitative research, so you can understand a wide range of research methods and when it is most appropriate to use each type. Expanded Single-Subject Design chapter provides a more thorough explanation and examples of multiple baselines, alternating treatments, and interactions -- designs that can be use in everyday clinical practice. Finding Research Literature chapter includes step-by-step descriptions of literature searches within different rehab professions. Student resources on a companion Evolve website allow you to review important concepts with exercises and discussion questions, research article analyses, and a downloadable

spreadsheet. Unique! New Evidence-Based Practice chapter provides an overview of the important concepts of EBP and the WHO model of health and disease. Discussion questions on the companion Evolve website provide you with ideas for further study. Unique! Research article analyses on Evolve provide more in-depth analysis and demonstrate the writing style you should employ. New authors Russell Carter and Jay Lubinsky bring an interdisciplinary focus and a stronger emphasis on evidence-based practice.

This Book of Abstracts is the main publication of the 62nd Annual Meeting of the European Association for Animal Production (EAAP) held in Stavanger, Norway from 29 August - 2 September 2011. It contains abstracts of the invited papers and contributed presentations. The meeting addressed subjects relating to science and innovation. Also, important problems were discussed during the sessions of EAAP's nine Commissions: Animal Genetics, Animal Nutrition, Animal Management and Health, Animal Physiology, Cattle Production, Sheep and Goat Production, Pig Production, Horse Production and Livestock Farming Systems. In addition joint sessions on topics interesting several disciplines and species were included in the programme.

This Book of Abstracts is the main publication of the 64th Annual Meeting of the European Federation for Animal Science 2013 in Nantes, France. It contains abstracts of the invited papers and contributed presentations. The meeting addressed subjects relating to science and innovation. Important problems were also discussed during the sessions of EAAP's nine Commissions: Animal Genetics, Animal Nutrition, Animal Management and Health, Animal Physiology, Cattle Production, Sheep and Goat Production, Pig Production, Horse Production and Livestock Farming Systems.

### **Extended Abstracts Book: Oral presentations**

A new third edition of this essential research E-book for Australian and New Zealand nursing and midwifery students. This third edition of *Navigating the Maze of Research: Enhancing Nursing and Midwifery Practice* is the ideal tool for nursing and midwifery students in Australia and New Zealand. Learning to access, evaluate and apply research findings in everyday clinical practice can be difficult. This excellent introductory E-book presents concepts in an accessible and engaging manner; demonstrating how to use research and, importantly, which research to use. Authors Sally Borbasi and Debra Jackson have also introduced a wealth of new content while continuing to provide the E-book's inimitable balance of theory and activities. All chapters have been significantly revised and updated to reflect current nursing and midwifery research theory and practice, and midwifery students will welcome the increased focus on midwifery specific research. Additional new content in this E-edition of *Navigating the Maze of Research* includes an increased focus on developing an evidence-based culture in the nursing workplace; a new chapter on applying the research process; a more explicit discussion of nursing ethics; case studies linking practice to research; and increased detail on sampling techniques and reliability and validity. Additional online resources are available for lecturers and students via Elsevier's Evolve platform. Content is presented in an accessible and engaging manner. Consistent format that makes the text easy to navigate Chapter features include: - Abstract - Key terms - Hints - Student Challenges - Tips for International Students - Other boxed information - Evolve icons indicated throughout the text Resources kit References Evolve eBook and online resources including Power point slides, test banks, activities and weblinks An increased focus on evidence-based practice throughout An increased focus on research specific to Midwives A more explicit discussion of ethical principles A new chapter on Applying the Research Process More detail on sampling techniques, reliability and validity Case studies linking research to practice

Young Researchers' meetings are held annually late in December since 2002 and they are organized by the Materials Research Society of Serbia. Originally conceived as seminars, since 2007 these meetings were transformed into conferences. The previous ten meetings featured presentations based on the research of various young scientists from Serbia, Bosnia and Herzegovina, Montenegro, Slovenia, Brazil, Germany, United States of America, China, Poland, Belgium, Spain, Romania, United Kingdom, Austria, Italy, Hungary, Russia, Canada, etc. At the Conference, young researchers, students of doctoral, master and undergraduate studies, are given the opportunity to make an overview of their research into materials science and engineering through oral and poster presentations. As for the scientific content of the conference, we have given full priority to research topics that are currently considered as being on the frontier of the field. Nanotechnology and Advanced Materials, Synthesis and Engineering of Biomaterials, Application of Biomaterials, Theoretical Modeling of Materials and Advanced Methods for Synthesis and Processing present only some of those exciting topics that will be given the central stage and most attention during this meeting. The conference is free of charge and the participants are invited to submit their papers to the journals Tehnika - Novi Materijali and Hemijska Industrija. The Tenth Young Researchers' Conference Materials Science and Engineering was held in Belgrade, Serbia on December 21-23, 2011. It was organized by the Materials Research Society of Serbia and Institute of Technical Sciences of the Serbian Academy of Sciences and Arts.

## **Navigating the Maze of Research - E-Book**

Contains nearly 2,000 annotated citations (primarily English language works) divided into forth-eight sections ; citations refer chiefly to works published between 1961 and 1992.

## **Psychiatric & Mental Health Nursing - E-Book**

## **Book of Abstracts**

The Beginner's Guide to Abstract Art is an inspirational but practical book that will help artists to paint in a less figurative way. Laura Reiter demonstrates different ways to approach an abstract painting from 'just a little bit abstract' to 'completely abstract'. She does this by focussing on ideas and themes as starting points, looking at the creative processes involved and more unusual techniques. Laura Reiter also covers how to use materials creatively - watercolour, acrylics, mixed media and collage - and how to experiment with colour and composition. There is also details on texture, simple printing, mark making, colour and its meaning, and sources of inspiration. Several projects are included, and, in addition to Laura's vibrant, colourful paintings, the work of several other contemporary abstract artists is featured. Previously published in hardback as Painting Accessible Abstracts.

## **SOBP 2015 Abstracts**

This new text discusses the roles and responsibilities of those working within the perioperative environment in Australia and New Zealand. It highlights the changing face of perioperative nursing and gives an overview of key concepts including anaesthetic, intraoperative and postanaesthesia recovery care; day surgery and endoscopy. Professional development and medico-legal aspects are also discussed. This is an introductory text which will appeal to a broad market from trainee enrolled nurses; to undergraduate nursing students doing a perioperative clinical placement; to postgraduate students of perioperative nursing. Registered nurses working within or preparing to work within this area, as well as other operating room staff such as anaesthetic technicians will also find this text invaluable.
