Literatures, Cultures, Translation presents a new line of books that engage central issues in translation studies such as

history, politics, and gender in and of literary translation. This is a culturally situated study of the interface between three forms of transtextual rewriting: translation, adaptation and imitation. Two questions are raised: first, how a broader rubric can be formulated for the inclusion of the latter two forms within Translation Studies research, and second, how this enlarged definition of translation enables us to understand the incompatibilities between contemporary Western theories of translation and East Asian realities, past and present. Recent decades have seen a surge of scholarly interest in adaptations and imitations, due to the flourishing of cinema and fandom studies, and to the impact of a poststructuralist turn that sheds new light on derivative literature. Against this backdrop, a plethora of examples from the East Asian cultural sphere are analyzed to show how rewriters have freely appropriated, transcreated and recontextualized their source texts. In particular, Sino-Japanese case studies are contrasted with Sino-English ones, with both groups read against evolving traditions of thinking about free forms of translation, East and West.

Getting Started with Keyboard Musicianship

Samuel Beckett is unique in literature. Born and educated in Ireland, he lived most of his life in Paris. His literary output was rendered in either English or French, and he often translated one to the other, but there is disagreement about the contents

of his bilingual corpus. A Beckett Canon by renowned theater scholar Ruby Cohn offers an invaluable guide to the entire corpus, commenting on Beckett's work in its original language. Beginning in 1929 with Beckett's earliest work, the book examines the variety of genres in which he worked: poems, short stories, novels, plays, radio pieces, teleplays, reviews, and criticism. Cohn grapples with the difficulties in Beckett's work, including the opaque erudition of the early English verse and fiction, and the searching depths and syntactical ellipsis of the late works. Specialist and nonspecialist readers will find A Beckett Canon valuable for its remarkable inclusiveness. Cohn has examined the holdings of all of the major Beckett depositories, and is thus able to highlight neglected manuscripts and correct occasional errors in their listings. Intended as a resource to accompany the reading of Beckett's writing--in English or French, published or unpublished, in part or as a whole--the book offers context, information, and interpretation of the work of one of the last century's most important writers. Ruby Cohn is Professor Emerita of Comparative Drama, University of California, Davis. She is author or editor of many books, including Anglo-American Interplay in Recent Drama; Retreats from Realism in Recent English Drama; From Desire to Godot; and Just Play: Beckett's Theater.

There is a flourishing literature on citizenship education in China that is mostly unknown in the West. Liberal political theorists often assume that only in democracy should citizens be prepared for their future responsibilities, yet citizenship

education in China has undergone a number of transformations as the political system has sought to cope with market reforms, globalization and pressures both externally and within the country for broader political reforms. Over the past decade, Chinese scholars have been struggling for official recognition of citizenship education as a key component of the school curriculum in these changing contexts. This book analyzes the citizenship education issues under discussion within China, and aims to provide a voice for its scholars at a time when China's international role is becoming increasingly important.

The Weeping Werewolf

Michael A. Sullenger was born and raised in a small Southern Indiana town. Over the years, his travels and education, coupled with his Christian upbringing and his undergraduate and postgraduate studies, have cultivated his personal political views. Those views and observations are the focus of this book. His perspective is that of someone raised with Midwestern

and Christian values, which he feels differs greatly from those on the East and West Coasts, as well as in most large cities. Those who have lived their lives through their school years and into early adulthood have a moral view of life and what it means to be a responsible citizen who contributes to our American society that clearly differs from the liberal members of our country. He asks straightforward questions that deal with our current political direction, from a Christian point of view. He also points out fallacies that are ever present in today's political system, along with challenging today's Christians to evaluate the politicians and political party they support against the biblical teachings in the Old and New Testament, as well as the Ten Commandments. If you find they fall short of those teachings, maybe a change is in order.
