Worldbusiness

One of the most comprehensive sources of information on casino management and gaming operations around the world. Presented in a readable, engaging, and logical manner, this book describes research, methodology, and techniques with exercises to reinforce the material of each chapter. Key terms are highlighted throughout the book.

Trading The China Market with American Depository Receipts

Country Report

Commercial gambling is a recent historical phenomenon. It has developed into a profitable industry that supplies a range of recreational activities to its customers, and is a significant way of collecting money from players to distribute to companies, state budgets, and other beneficiaries. Many of these are civil society organizations, using the money for producing services in sports, culture, social work, and health care. However, gambling can also develop into pathological behaviour. Using a public interest framework, this book discusses the policies that will best serve the public good and minimize individual and collective harms. After describing the historical context of the gambling and the current global burden of the activity, available methods of regulating the industry are evaluated

Read Book Casino Industry In Asia Pacific Development Operation And Impact

using the available scientific evidence. By analysing the effectiveness of gambling policies and their alignment with the public interest, the epidemiological obstacles to successful regulation are considered in detail. There is good evidence for the effectiveness of restrictions on availability and access, but preventing gambling-related harm is not possible without limiting the overall volume of the activity, and hence the profits for the gambling industry and governments. Taking an international approach, this book delivers a comprehensive review of the epidemiological evidence documenting the harmful effects of gambling on individuals, communities, and societies. Essential reading for policymakers, social and behavioural scientists in gambling research, and public health researchers, *Setting Limits* examines a global view of an emerging epidemic of gambling problems.

Corporate Social Disclosure

Crossing Borders in the Asia-Pacific

Corporate Social Disclosure focuses on China and Japan as two countries for critical observations of the latest CSD issues. This volume consists of 12 chapters written by scholars from these two countries, addressing the latest observation of CSD in general as well as in different industries based on their latest research findings.

Pacific Magazine

Casino Industry in Asia Pacific

The impact across borders of transnational identities, business links and ideas has been on the international political agenda for a long time. These cross border phenomena have a steady and profound influence on domestic politics and international relations. However, they also represent a challenge because these factors can subvert accustomed views of sovereignty. The essays in this book stress the diversity and influence as well as the limitations of cross border phenomena in the Asia-Pacific, a region home to the principles of non-interference and respect for autonomy. Emerging from this collection is a picture of an area dynamically affected by the penetration of ideas, organised

interests, and financial flows. Though national borders have become more porous, state power and local identities still resist, shape and modify cross border influences.

The Gaming Industry Daily Report

Casino Management in Integrated Resorts introduces students to the changing nature of casino businesses within the framework of an integrated resort or hospitality organisation. In the new integrated casino model, casinos play an important role not only in revenue generation but in supporting the other amenities in the resort, including bars, restaurants, hotels and theme parks. This book brings readers up to speed with the challenges of managing a casino within this rapidly expanding gaming–leisure–tourism industry. It covers a range of essential topics, such as the basic psychology of casino gaming, the role and history of casinos within an integrated resort, staffing, floor design, table and slot game management, control and security, marketing and social impact. Written in an accessible style, this book is suitable for readers with no prior knowledge of, or experience in, casino operations. It will be an essential introductory yet comprehensive resource for all those undertaking casino management courses.

way to make virtually risk-free profits, Trading the China Market with American Depository Receipts teaches readers how to successfully trade U.S. listed American Depository Receipts (ADRs) of Chinese stocks . . . by using information that comes to light outside of Asian trading hours, but while the U.S. markets are still open. Filled with successful strategies for profitable trading made possible by interpreting business news to buy or short China ADRs before the information impacts those markets the next day, the book walks readers through this incredible opportunity step-by-step. Filled with case studies that show the success of the strategies outlined, the book explains where to look for price-moving information. Aimed at investors of all types who have access to a brokerage account that can trade U.S. securities—including online brokers—Trading the China Market with American Depository Receipts is the ultimate guide to making money from China in your own backyard. Explains incredible new strategies for trading U.S. listed ADRs of Chinese stocks using information released after the Asian markets have closed for the day Includes case studies that clearly show how this strategy has worked and continues to work Features lists of relevant underlying shares and their corresponding ADRs A low-risk strategy for profiting from foreign markets, Trading the China Market with American Depository Receipts shows how to use the U.S.-China time difference for profit.

The Best of the Business Web

The Digital Review of Asia Pacific provides an overview of how information and communication technology (ICT) is being diffused throughout the Asia Pacific region to facilitate socio-economic development. This third annual review provides an analytical overview of the state of ICT4D in the Asia Pacific region. It covers 31 countries and economies including - for the first time - North Korea. Each country is dealt within a separate chapter, which attempts to provide comprehensive coverage of the various aspects of ICT4D in the concerned country at the time of writing (in 2006). The chapters have been written by a team of authors representing different sectors, such as government, academia, industry, and civil society.
