opulent mountain retreat, and from ancient earthen mounds of the Cherokee to twentieth-century hydroelectric dams and the Blue Ridge Parkway. Featuring more than 370 photographs and 36 maps, the guide is written for travelers and residents alike. It offers concise entries on notable buildings, neighborhoods, and communities, emphasizing buildings that are visible from the road and indicating sites that are open to the public. A project of the North Carolina State Historic Preservation Office of the Division of Archives and History and its western office in Asheville, the book reflects more than twenty-five years of fieldwork and research in the agency's statewide architectural survey and National Register of Historic Places programs. A previous volume covers eastern North Carolina and a future volume will cover the piedmont region.

Practical Geometry for the Architect, Engineer, Surveyor and Mechanic

University of Toronto: The Campus Guide, second edition, portrays the dramatic growth and development of Canada's largest university while it showcases some of the finest architecture and landscapes in eleven curated walking tours. Founded in 1850 and built in a pastoral setting outside the city limits, the renowned university now has more than 90,000 students at three distinguished campuses: the downtown Toronto St. George campus, the University of Toronto Mississauga, and the University of Toronto Scarborough. Extraordinary new photographs and beautifully illustrated maps bring to life the

represent key historical periods as well as the works of major architects; in an accessibly priced reference that includes coverage of the National Mall and is complemented by behind-the-scenes anecdotes and black-and-white photography. Original.

A Guide to the Historic Architecture of Piedmont North Carolina

Birkhäuser Architectural Guide

British Books

Whether it be Calatrava's elegant bridges in Seville or Barcelona, Peter Zumthor's beautiful thermal baths in Vals, Switzerland, Dominique Perrault's Bibliotheque Nationale in Paris, or Tadao Ando's museum building on the island Naoshima, these are just a few structures which have been celebrated around the world, making their architects household names. In the 20th century, we have seen striking buildings scatter our town-scapes, awe-inspiring skyscrapers shape our skylines, and beautiful bridges span our rivers. Growing numbers of people are becoming aware of the architectural environment around them and are taking an interest in the issues which are at the heart of our built surroundings. The Birkhauser Architectural Guides provide a handy overview to the greatest - and latest - buildings in the 20th century. Each volume is devoted to one country or group of countries, and the contents are organised by

provinces and towns. Full addresses and information on the architect, the building itself, in addition to a general overview of the architectural scene in the given country are presented. Available are guides to Germany, Switzerland, the Netherlands, Benelux, France, Japan, and Spain at the special low price of \$18.
