Parliamentary Debates

Published to mark the 60th anniversary of the launch of the Official Singles Charts in 1952, The Million Sellers tells the story of every million-selling single in the history of the UK music industry. An analysis of the 123 singles which have passed the magical million sales threshold in the UK in the past 60 years, from Bill Haley & The Comets' very first UK million seller right through to more recent singles by Lady Gaga, Rihanna and the Black Eyed Peas. Interviews with artists like Mel C, Kevin Rowland and Midge Ure, reflecting on their own million seller and what they most remember of their success at the time. Interviews with artists including Engelbert Humperdinck, Steps, Bernard Sumner (New Order), Midge Ure (Ultravox), Mel C (Spice Girls), Boney M, Kevin Rowland and many more. Each one reflects on their own million seller and what they most remember of their success at the time. The Official Charts Company are the providers of the UK's only official music and video charts, compiling its charts purely from sales information gathered across all key distribution (or entertainment) channels including all major high street retail chains, independent stores, supermarkets, mail order internet retailers and digital music service providers. This market research sample equates to 99% of the total UK singles market; 98% of the total UK albums market and 90% of the total UK DVD market. The Official Charts Company is a joint venture between record labels' body the BPI and ERA, the Entertainment Retailers Association. The Official Charts Company are responsible for the commissioning, marketing, distribution and management of the UK's industry standard music charts and industry sales data.
