A Book About Love

Yes, humans and canines are different species, but current research provides fascinating, irrefutable evidence that what we share with our dogs is greater than how we vary. As behaviorist and zoologist Dr. Patricia McConnell tells us in this remarkable new book about emotions in dogs and in people, more and more scientists accept the premise that dogs have rich emotional lives, exhibiting a wide range of feelings including fear, anger, surprise, sadness, and love. In *For the Love of a Dog*, McConnell suggests that one of the reasons we love dogs so much is that they express emotions in ways similar to humans. After all, who can communicate joy better than a puppy? But not all emotional expressions are obvious, and McConnell teaches both beginning dog owners and experienced dog lovers how to read the more subtle expressions hidden behind fuzzy faces and floppy ears. For those of us who deeply cherish our dogs but are sometimes baffled by their behavior, *For the Love of a Dog* will come as a revelation—a treasure trove of useful

facts, informed speculation, and intriguing accounts of man's best friend at his worst and at his very best. Readers will discover how fear, anger, and happiness underlie the lives of both people and dogs and, most important, how understanding emotion in both species can improve the relationship between them. Thus McConnell introduces us to the possibility of a richer, more rewarding relationship with our dogs. While we may never be absolutely certain what our dogs are feeling, with the help of this riveting book we can understand more than we ever thought possible. Those who consider their dogs part of the family will find *For the Love of a Dog* engaging, enlightening, and utterly engrossing.

With a lifetime of experience, profound knowledge and understanding, and heartwarming appreciation, an internationally celebrated conductor and teacher answers the questions: Why should I listen to classical music? How can I get the most from the listening experience? A protégé of Leonard Bernstein--his colleague for eighteen years--and an eminent conductor who has toured and recorded all over the world, John Mauceri helps us to reap the joys and pleasures classical music has to offer. Briefly, we learn the way a musical tradition born in ancient Greece, embraced by the Roman Empire, and subsequently nurtured by influences

from across the globe, gave shape to the classical music that came to be embraced by cultures from Japan to Bolivia. Then Mauceri examines the music itself, helping us understand what it is we hear when we listen to classical music: how, by a kind of sonic metaphor, it expresses the deepest recesses of human feeling and emotion; how each piece bears the traces of its history; how the concert experience--a unique one each and every time--allows us to discover music anew. Unpretentious, graceful, instructive, this is a book for the aficionado, the novice, and anyone looking to have the love of music fired within them.

Michael Fowler is doing his best not to fall in love with Steve Lopes, a piano player with eyes as green as willow shoots and hair the color of polished chestnuts. Love is just not in the cards for an actor whose career is on the rise, and who has just landed the triple part in Shakespear´s "Hamlet;" the role that Shakespear himself is likely to have played. But Steve is really hard to get out of his head, and, he fears, his heart. Then there is the fact that Steve wants him to do an ´environmental´ performance, playing his non-existant cousin Toby in order to solve some long-term family problems. Steve was raised by his beloved Aunt Minerva who, it appears, has imaginary relatives as well as real ones. And the real ones want to get their hands on her money. To top it off, there is a serial killer who has been murdering Gay men, and the killer has Michael at the head of his hit list. Set in the 1980s in San Francisco and Los Angeles, Mason Powell´s Gay romantic crime novel is a tightly plotted tale of murder and madness, of theater and people whose lives put the theater to shame. It is also a tour of places as they were and characters as they are likely to remain in California: a state which holds its zanies to be its greatest natural resource. A nonfiction investigation into masculinity, For The Love of Men provides actionable

steps for how to be a man in the modern world, while also exploring how being a man in the world has evolved. In 2019, traditional masculinity is both rewarded and sanctioned. Men grow up being told that boys don't cry and dolls are for girls (a newer phenomenon than you might realize—gendered toys came back in vogue as recently as the 80s). They learn they must hide their feelings and anxieties, that their masculinity must constantly be proven. They must be the breadwinners, they must be the romantic pursuers. This hasn't been good for the culture at large: 99% of school shooters are male; men in fraternities are 300% (!) more likely to commit rape; a woman serving in uniform has a higher likelihood of being assaulted by a fellow soldier than to be killed by enemy fire. In *For the Love of Men*, Liz offers a smart, insightful, and deeply-researched guide for what we're all going to do about toxic masculinity. For both women looking to guide the men in their lives and men who want to do better and just don't know how, *For the Love of Men* will lead the conversation on men's issues in a society where so much is changing, but gender roles have remained strangely stagnant. What are we going to do about men? Liz Plank has the answer. And it has the possibility to change the world for men and women alike.

“Jonah Lehrer has a lot to offer the world....The book is interesting on nearly every page....Good writers make writing look easy, but what people like Lehrer do is not easy at all.” —David Brooks, The New York Times Book Review Science writer Jonah Lehrer explores the mysterious subject of love. Weaving together scientific studies from clinical psychologists, longitudinal studies of health and happiness, historical accounts and literary depictions, child-rearing manuals, and the language of online dating sites, Jonah Lehrer’s *A Book About Love* plumbs the most mysterious, most formative, most important impulse governing our lives. Love confuses and compels us—and it can destroy and define us. It has inspired our greatest poetry, defined our societies and our beliefs, and governs our biology. From the way infants attach to their parents, to the way we fall in love with another person, to the way some find a love for God or their pets, to the way we remember and mourn love after it ends, this book focuses on research that attempts, even in glancing ways, to deal with the long-term and the everyday. The most dangerous myth of love is that it’s easy, that we fall into the feeling and then the feeling takes care of itself. While we can easily measure the dopamine that causes the initial feelings of “falling” in love, the partnerships and devotions that last decades or longer remain a mystery. This book is about that mystery. Love, Lehrer argues, is not built solely on overwhelming passion, but, fascinatingly, on a set of skills to be cultivated over a lifetime.

As Max explains, "I wanted a wide range of adventures from another time, with different horses, of different breeds, and a sense of history of those special days." Max begins with his first horse, Cricket, which he received when he was four years old. At the age of ten, he helped with a horse-drive from far southeast New Mexico, through west Texas, and on to the final destination in Guymon, Oklahoma. Later, PDQ was a horse that seemed very gentle and laid-back, until someone rode him. And then there was Molly, who liked to fly through and around obstacles on coyote hunts. For the Love of an Angel A love story. A tale of death, heaven and a fallen angel. A tale of treachery and demons and how two immortals from opposite sides work together to solve the murder of a young girl. Hey, Phinn here. I'm an Angel. A 16 year old immortal. You don't know me. You've never seen me. Unless you're a dead teenager and you've been good and live in Southern California (narrows it down, huh?). If that's the case, we've probably met. See, I take the souls of good kids to Heaven, but I'm not allowed to interact with the living which makes high school, being on the soccer team and writing for the school newspaper a little difficult. As an angel, I play by the rules. My "arch-frenemy" Iszn, the demon who takes the bad kids to Hell, breaks all the rules which is why he's one of the most popular kids in school. Iszn's hobbies are football, human girls, football, torturing me, football and evil. did I mention football? Anyway, as an Angel I try not to have any direct contact with humans well, that is until I met this girl. Actually, until she met me it's kind of complicated. That's one of the reasons I write my blog to let you guys in on a world you probably didn't even know existed until it's too late, anyway. But this world does exist, and it's about to get complicated. There are some deaths
