Go Math!, Grade 3

The Big Ideas Math program balances conceptual understanding with procedural fluency. Embedded Mathematical Practices in grade-level content promote a greater understanding of how mathematical concepts are connected to each other and to real-life, helping turn mathematical learning into an engaging and meaningful way to see and explore the real world.

Big Ideas Math Accelerated Grade 7 Teaching Edition

Houghton Mifflin Mathematics, California Edition

GO Math! offers an engaging and interactive approach to covering the Common Core State Standards. This Grade 1 student edition is organized into individual chapter booklets and comes with a student resource book.

Guided Math: A Framework for Mathematics Instruction

Count and share with...underwear! Come along on a zany adventure with this Classic Board Book edition of One Big Pair of Underwear from New York Times bestselling illustrator Tom Lichtenheld! What's one thing that two bears, three yaks, four goats, and six cats have in common? They hate to share. But look out—here comes a pack of twenty pigs ready to prove that sharing makes everything twice as fun! This seriously silly Classic Board Book with artwork by the New York Times bestselling illustrator of Goodnight, Goodnight Construction Site irresistibly combines the concepts of counting and sharing.

Go Math!

Use a practical approach to teaching mathematics that integrates proven literacy

strategies for effective instruction. This professional resource will help to maximize the impact of instruction through the use of whole-class instruction, small-group instruction, and Math Workshop. Incorporate ideas for using ongoing assessment to guide your instruction and increase student learning, and use hands-on, problem-solving experiences with small groups to encourage mathematical communication and discussion. Guided Math supports the College and Career Readiness and other state standards.

Go Math! Standards Practice Book Grade 2

Big Ideas Math

Use the powerful strategies of play and storytelling to help young children develop their "math brains." This easy-to-use resource includes fun activities, routines, and games inspired by children's books that challenge children to recognize and think more logically about the math all around them.

One Big Pair of Underwear

Go Math! Grade 4

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Note: This is the bound book only and does not include access to the Enhanced Pearson eText. To order the Enhanced Pearson eText packaged with a bound book,

use ISBN 0133548635. In this unique guide, classroom teachers, coaches, curriculum coordinators, college students, and teacher educators get a practical look at the foundational concepts and skills of early mathematics, and see how to implement them in their early childhood classrooms. Big Ideas of Early Mathematics presents the skills educators need to organize for mathematics teaching and learning during the early years. For teachers of children ages three through six, the book provides foundations for further mathematics learning and helps facilitate long-term mathematical understanding. The Enhanced Pearson eText features embedded video. Improve mastery and retention with the Enhanced Pearson eText* The Enhanced Pearson eText provides a rich, interactive learning environment designed to improve student mastery of content. The Enhanced Pearson eText is: Engaging. The new interactive, multimedia learning features were developed by the authors and other subject-matter experts to deepen and enrich the learning experience. Convenient. Enjoy instant online access from your computer or download the Pearson eText App to read on or offline on your iPad® and Android® tablet.* Affordable. Experience the advantages of the Enhanced Pearson eText for 40-65% less than a print bound book. * The Enhanced eText features are only available in the Pearson eText format. They are not available in third-party eTexts or downloads. *The Pearson eText App is available on Google Play and in the App Store. It requires Android OS 3.1-4, a 7" or 10" tablet, or iPad iOS 5.0 or later.

Houghton Mifflin Journeys

Big Ideas Math Course 3

Go Math!

Consistent with the philosophy of the Common Core State Standards and Standards for Mathematical Practice, the Big Ideas Math Student Edition provides students with diverse opportunities to develop problem-solving and communication skills through deductive reasoning and exploration. Students gain a deeper understanding of math concepts by narrowing their focus to fewer topics at each grade level. Students master content through inductive reasoning opportunities, engaging activities that provide deeper understanding, concise, stepped-out examples, rich, thought-provoking exercises, and a continual building on what has previously been taught.

Go Math!

GO Math! combines fresh teaching approaches with never before seen components that offer everything needed to address the rigors of new standards and assessments. The new Standards Practice Book, packaged with the Student Edition, helps students achieve fluency, speed, and confidence with grade-level concepts. GO Math! is the first K-6 math program written to align with the Common Core. With GO Math! you will hit the ground running and have everything you need to teach the Common Core State Standards. GO Math! combines fresh teaching

approaches with everything needed to address the rigors of the Common Core Standards. Using a unique write-in student text at every grade, students represent, solve, and explain -- all in one place. - Publisher.

Go Math!

Tired of ten pound math textbooks? Tired of math textbooks with 700 to 1,000 pages? Tired of massive student failure in gatekeeper math courses like Algebra I? Tired of math phobic students (and their parents) exclaiming, "I hate math!"? Maybe it is time to try a different curriculum. Math For Everyone is a curriculum designed to promote massive student (and teacher) math success. Each year's content in the six math courses (7th Grade Math, Algebra I, Geometry I, Algebra II, Math Analysis and Calculus) is boiled down into its essential vocabulary and 5-7 key concepts with particular attention paid to clarity and articulation between courses. Assessment includes old favorites as well as authentic assessment with rubrics and grading advice included. No text is longer than 80 pages as the 5-7 key concepts can be amply demonstrated and practiced in this amount of space. Math For Everyone is not only great for new math teachers and struggling math students, but great for everyone. Nathaniel Max Rock is an educator since 2001 and the author of more than a dozen education books. He has taught the following courses: 7th Grade Math, Algebra I, Geometry I, Algebra II, Math Analysis, Calculus,

as well as California High School Exit Exam (CAHSEE) Prep Classes, AVID Elective (9th & 10th grade), and Carnegie Computer classes. Max's authoring topics include math, education and religion.

Innovate Inside the Box

If you liked *Dune*, *Atlantis Gene* and *Star Wars*—you will love the book *Battlefield Earth*! In the year A.D. 3000, Earth is a dystopian wasteland, plundered of its natural resources by alien conquerors known as Psychlos. Fewer than thirty-five thousand humans survive in a handful of communities scattered across the face of a post-apocalyptic Earth. From the ashes of humanity rises a young hero, Jonnie Goodboy Tyler. Setting off on an initial quest to discover a hidden evil, Jonnie unlocks the mystery of humanity's demise and unearths a crucial weakness in their oppressors. Spreading the seeds of revolt, Jonnie and a small band of survivors pit their quest for freedom in an all-out rebellion that erupts across the continents of Earth and the cosmic sprawl of the Psychlo empire. For the fate of the Galaxy lies on the Battlefield of Earth. "Over 1,000 pages of thrills, spills, vicious aliens and noble humans. I found *Battlefield Earth* un-put-downable." —Neil Gaiman "Battlefield Earth is a terrific story! The carefully underplayed comedy I found it delicious. A masterpiece." —Robert A. Heinlein "Pulse-pounding mile-a-minute sci-fi action adventure that does not stop. It is a masterpiece of popular adventure science fiction." —Brandon Sanderson "Space opera that hits the right notes. It's provocative, exhilarating and genuinely enjoyable." —SCIFI.COM "Like the Harry Potter series, it's got concepts like good vs. evil, the noble savage and the hero's journey—and people go crazy over it!" —Dr. David Powers, Educator Awards and Accolades: Top 100 science fiction books Top three of the best 100 English language novels of the 20th century by the Random House Modern Library Readers Poll US Golden Scroll and Saturn Awards Tetradrama d'Oro Award Gutenberg Award Read the novel that changed the shape of science fiction * Over 4,000,000 copies sold * Translated in 25 languages * 21st Century edition with expanded content: author's never-before-published handwritten notes & an exclusive author interview An engaging read for STEM learning The imaginative diversity of the novel's characters and alien races, its military artifacts and striking technologies and mathematics make it the perfect motivation for STEM learning. "Want to get your kid excited about STEM? *Battlefield Earth* will give you the talking points, in fact, they'll already be talking about it." —S.G. Educator Accelerated Reader level 5.8, students earn 62 points Lexile 780 Discussion guide available for book clubs and educators.
