This contributed two-volume work tackles a fascinating topic: how and why God plays a central role in the modern world and profoundly influences politics, art, culture, and our moral reflection—even for nonbelievers.

- Supplies a broad conception of "God" that provides readers with a fuller and more accurate portrait of a phenomenon that evolved substantially over time but also remains an enduring—and enduringly influential—element of popular culture
- Explores not only how individuals grapple with the question of God, but also how God invariably and unintentionally enters people's thinking
- Supplies direct examples of the key role that God plays in everyday life that readers will find compelling from both a personal and cultural perspective
- Comprises essays from sociologists, theologians, cultural critics, and journalists that present a wide range of perspectives and approaches to this universally relevant topic

Audio Files located on Soundcloud Essential Song: Three Decades of Northern Cree Music, a study of subarctic Cree hunting songs, is the first detailed ethnomusicology of the northern Cree of Quebec and Manitoba. The result of more than two decades spent

in the North learning from the Cree, Lynn Whidden's account discusses the tradition of the hunting songs, their meanings and origins, and their importance to the hunt. She also examines women's songs, and traces the impact of social change—including the introduction of hymns, Gospel tunes, and country music—on the song traditions of these communities. The book also explores the introduction of powwow song into the subarctic and the Crees struggle to maintain their Aboriginal heritage—to find a kind of song that, like the hunting songs, can serve as a spiritual guide and force. Including profiles of the hunters and their songs and accompanied (online) by original audio tracks of more than fifty Cree hunting songs, *Essential Song* makes an important contribution to ethnomusicology, social history, and Aboriginal studies.

Wesleyans and Wesleyan theology have long been interested in the sciences. John Wesley kept abreast of scientific developments in his own day, and he engaged science in his theological construction. *Divine Grace and Emerging Creation* offers explorations by contemporary scholars into the themes and issues pertinent to contemporary science and Wesleyan Theology. In addition to groundbreaking research by leading Wesleyan theologians, Jürgen Moltmann contributes an essay.

Moltmann's work derives from his keynote address at the joint Wesleyan Theological Society and Society for Pentecostal Studies meeting on science and theology at Duke University. Other contributions address key contemporary themes in theology and science, including evolution, ecology, neurology, emergence theory, intelligent design, scientific and theological method, and biblical cosmology. John Wesley's own approach to science, explored by many contributors, offers insights for how two of humanity's central concerns--science and theology--can now be understood in fruitful and complementary ways.

Precious Lord! How to Play Black Gospel book 1 is the  
leading and most comprehensive book on the subject.  
It offers step by step instructions; from traditional to  
contemporary styles, and is a great teaching aid for  
the private instructor and the college professor.

"TRULY A TREASURE! To all who have wished for and  
searched for a good book on how to play black gospel.  
This is it!! This book is better than good. It is  
excellent. The author clearly knows his subject well  
and is able to present it clearly. The book is practical  
and detailed. Many different aspects of black gospel  
are illustrated and are demonstrated on the  
accompanying CDs. As far as I am concerned this  
material is classic. In view of the quality of the  
information as well as the fact that this information is  
normally so difficult to obtain, I feel blessed to have  
bought this book" Linden, NJ United States "Highly  
Substantive!!! A long overdue book that delves down

into the the theory behind playing black gospel. It is well written, and substantive. Robert L. Jefferson has elevated the instruction of gospel to a totally new level. With players of the authentic music willing or able to teach being so rare, it is a true treat to study with an individual who is so clearly able to articulate it. After a brief history of the music, Mr. Jefferson tackles a wide array of topics from basic chord theory and gospel cadence, to everything from passing chords, secondary dominants, contemporary, licks and fills, soul gospel and more. Examples are enlightening and abundant Purchasing this book will definitely take you to a whole new level regardless of where you are now! When it comes to music instruction books, this book ranks TOP on my list." "Jazz Organist" (Tokyo, Japan)
