Hannibal's War

A dramatic account of the violent ancient battle traces the massive defeat of the huge but inexperienced Roman army by Hannibal's forces, interpreting the larger course of the Second Punic War and the often-disastrous ways in which the battle has been imitated throughout history.

Livy Book XXI

Hannibal's Road

This epic retelling of the legendary Carthaginian military leader's assault on the Roman empire begins in Ancient Spain, where Hannibal Barca sets out with tens of thousands of soldiers and 30 elephants. After conquering the Roman city of Saguntum, Hannibal wages his campaign through the outposts of the empire, shrewdly befriendng peoples disillusioned by Rome and, with dazzling tactics, outwitting the opponents who believe the land route he has chosen is impossible. Yet Hannibal's armies must take brutal losses as they pass through the Pyrenees mountains, forge the Rhone river, and make a winter crossing of the Alps before descending to the great tests at Cannae and Rome itself. David Anthony Durham draws a brilliant and complex Hannibal out of the scant historical record—sharp, sure-footed, as nimble among rivals as on the battlefield, yet one who misses his family and longs to see his son grow to manhood. Whether portraying the deliberations of a general or

the calculations of a common soldier, vast multilayered scenes of battle or moments of introspection when loss seems imminent, Durham brings history alive.

Cannae [Illustrated Edition]

One of the names most synonymous with brilliant military strategy is Hannibal. He was the legendary Carthaginian general who marched elephants over the snowy Alps and took on Rome, the growing power in Europe at the time. He outsmarted the best strategists that Rome had to offer and twice sat in front of the gates of Rome with his army.

A History of Rome

When he left his Spanish base one spring day in 218 B.C. with his 100,000-man army of mercenaries, officers, and elephants, Hannibal was launching not just the main offensive of the Second Punic War but also one of the great military journeys in ancient history. His masterful advance through rough terrain and fierce Celtic tribes proved his worth as a leader, but it was his extraordinary passage through the Alps—still considered treacherous even by modern climbers—that made him a legend. John Prevas combines rigorous research of ancient sources with his own excursions through the icy peaks to bring to life this awesome trek, solving the centuries-old question of Hannibal's exact route and shedding fresh light on the cultures of Rome and Carthage along the way. Here is the finest kind of history, sure to appeal

to readers of Steven Pressfield's *Gates of Fire*: alive with grand strategy, the clash of empires, fabulous courage, and the towering figure of Hannibal Barca.

The War with Hannibal

Hannibal is acknowledged to be one of history's greatest generals, and his crossing of the Alps - complete with elephants - to make war against Rome on its home soil is legendary. But even Hannibal met his match in Scipio, and ultimately Carthage was defeated by the rising power of Rome. In *Hannibal's War*, J. F. Lazenby provides the first scholarly account in English since 1886 solely devoted to the Second Punic War - what some have called the first "world war" for mastery of the Mediterranean world. By closely examining the accounts of Livy and Polybius, supplemented with the fruits of modern research, Lazenby provides a detailed military history of the entire war as it was fought in Italy, Spain, Greece, and North Africa. This edition includes a new preface covering recent research on Hannibal's war against Rome.

The Psychology of Instruction

In *The War with Hannibal*, Livy (59 BC-AD 17) chronicles the events of the Second Punic War between Rome and Carthage, until the Battle of Zama in 202 BC. He vividly recreates the immense armies of Hannibal, complete with elephants, crossing the Alps; the panic as they approached the gates of Rome; and the decimation of the Roman army at the Battle of Lake Trasimene. Yet it is also the clash of personalities that fascinates Livy, from great debates in the Senate to the historic meeting between Scipio and Hannibal before the decisive battle. Livy never hesitates to introduce both intense drama and moral lessons into his work, and here he brings a turbulent episode in history powerfully to life.

Over 100 maps and diagrams are included. As one of the foremost of a new generation of officers around the time of Prussian expansionism and the birth of a federal Germany, he was to experience much warfare first-hand. After graduating with honours from the famed Prussian Kriegsakademie he was appointed to the planning unit of the German General Staff. He was

to see the plans that he worked upon come to bloody but successful conclusions during the wars with Austria in 1866 and most famously the annihilation of French army during the Franco-Prussian War of 1870. Schlieffen's lasting impression on the world was his famous "Schlieffen Plan" which he designed to enable the German army to knock France out of a two front war by a huge flanking manoeuvre through the Low Countries. He studied military history extensively leading to his most famous work was "Cannae", intended to explain and illustrate the driving idea of the battle of encirclement that had achieved so much success throughout history. Using examples from the wars of Hannibal, Frederick the Great, Napoleon and the recent German led wars with Austria and France, he sets out how the encirclement and destruction of an enemy's army should be achieved. The book was seen as a watershed in military theory and was widely read across the world; to ensure that the ideas were disseminated to their students the American Army translated it into English. The effect of Schlieffen's thinking was still felt by the senior officers that fought in the Second World War who were imbued with the principles of Cannae which would be so well defined as part of the German Blitzkrieg. No less a military leader but General Erich Ludendorff, the principal German strategist of the First World War, declared that Schlieffen was "one of the greatest soldiers ever." no mean testament to the man and his principal book.

Hannibal Crosses The Alps

The Romans' destruction of Carthage after the Third Punic War erased any Carthaginian historical record of Hannibal's life. What we know of him comes exclusively from Roman historians who had every interest in minimizing his success, exaggerating his failures, and disparaging his character. The charges leveled against Hannibal include greed, cruelty and atrocity, sexual indulgence, and even cannibalism. But even these sources were forced to grudgingly admit to Hannibal's military genius, if only to make their eventual victory over him appear greater. Yet there is no doubt that Hannibal was the greatest Carthaginian general of the Second Punic War. When he did not defeat them outright, he fought to a standstill the best generals Rome produced, and he sustained his army in the field for sixteen long years without mutiny or desertion. Hannibal was a first-rate tactician, only a somewhat lesser strategist, and the greatest enemy Rome ever faced. When he at last met defeat at the hands of the Roman general Scipio, it was against an experienced officer who had to strengthen and reconfigure the Roman legion and invent mobile tactics in order to succeed. Even so, Scipio's victory at Zama was against an army that was a shadow of its former self. The battle could easily have gone the other way. If it had, the history of the West would have been changed in ways that can only be imagined. Richard A. Gabriel's brilliant new biography shows how Hannibal's genius nearly unseated the Roman Empire.

The life of the great Carthaginian general who marched into Rome during the Second Punic War is reexamined in this revealing and scholarly biography. Once of the greatest military minds of the Ancient World, Hannibal Barca lived a life of daring and survival, massive battles, and ultimate defeat. A citizen of Carthage and military commander in Punic Spain, he famously marched his war elephants and huge army over the Alps into Rome's own heartland to fight the Second Punic War. Yet the Romans were the ultimate victors. They eventually captured and destroyed Carthage, and thus it was they who wrote the legend of Hannibal: a brilliant and worthy enemy whose defeat represented military glory for Rome. In this groundbreaking biography, Eve MacDonald employs archaeological findings and documentary sources to expand the memory of Hannibal beyond his military career. Considering him in the context of his time and the Carthaginian culture that shaped him, MacDonald offers a complex portrait of a man from a prominent family who was both a military hero and a statesman. MacDonald also analyzes Hannibal's legend over the millennia, exploring how statuary, Jacobean tragedy, opera, nineteenth-century fiction, and other depictions illuminate the character of one of the most fascinating figures in all of history.

Hannibal

Silius Italicus' *Punica*, the longest surviving epic in Latin literature, has seen a resurgence of interest among scholars in recent years. A celebration of Rome's triumph over Hannibal and Carthage during the second Punic war, Silius' poem presents a plethora of familiar names to its readers: Fabius Maximus, Claudius Marcellus, Scipio Africanus and, of course, Rome's 'ultimate enemy' - Hannibal. Where most recent scholarship on the *Punica* has focused its attention on the problematic portrayal of Scipio Africanus as a hero for Rome, this book shifts the focus to Carthage and offers a new reading of Hannibal's place in Silius' epic, and in Rome's literary culture at large. Celebrated and demonised in equal measure, Hannibal became something of an anti-hero for Rome; a man who acquired mythic status, and was

condemned by Rome's authors for his supposed greed and cruelty, yet admired for his military acumen. For the first time this book provides a comprehensive overview of this multi-faceted Hannibal as he appears in the *Punica* and suggests that Silius' portrayal of him can be read as the culmination to Rome's centuries-long engagement with the Carthaginian in its literature. Through detailed consideration of internal focalisation, Silius' Hannibal is revealed to be a man striving to create an eternal legacy, becoming the Hannibal whom a Roman, and a modern reader, would recognise. The works of Polybius, Livy, Virgil, and the post Virgilian epicists all have a bit-part in this book, which aims to show that Silius Italicus' *Punica* is as much an example of how Rome remembered its past, as it is a text striving to join Rome's epic canon.

The Ghosts of Cannae

Describes the life and exploits of the general who waged war against Rome.

Hannibal

On a hot and dusty summer's day in 216 BC, the forces of the Carthaginian general Hannibal faced the Roman army in a dramatic encounter at Cannae. Massively outnumbered, the Carthaginians nevertheless won an astonishing victory - one that left more than 50,000 men dead. Gregory Daly's enthralling study considers the reasons that led the two armies to the field of battle, and why each followed the course that they did when they got there. It explores in detail the composition of the armies, and the tactics and leadership methods of the opposing generals. Finally, by focusing on the experiences of those who fought, Daly gives an unparalleled portrait of the true horror and chaos of ancient warfare. This striking and vivid account is the fullest yet of the bloodiest battle in ancient history.

Hannibal: Enemy of Rome

Many books have been written on the Second Punic War and Hannibal in particular but few give much space to his campaigns in the years from 213 203 BC. Most studies concentrate on Hannibal's series of stunning victories in the early stages of the war, culminating at Cannae in 216 BC, then refocus on the activities of his nemesis ,Scipio Africanus, in Spain until the two meet in the final showdown at Zama. But this has led to the neglect of some of the Carthaginian genius most remarkable campaigns. By 212 the wider war was definitely going against the Carthaginians. Yet Hannibal, despite being massively outnumbered and with little support from home, was able to sustain his polyglot army and campaign actively across southern Italy for another ten years. His skilful manoeuvring and victory in numerous engagements kept several veteran armies of the normally aggressive Romans tied up and on the defensive, until Scipio's invasion of North Africa pulled him home to defend Carthage. Mike Roberts follows the course of these remarkable events in detail, analysing Hannibal's strategy and aims in this phase of the war and revealing a genius that had lost none of its lustre in adversity.

A History of the Ancient World

Originally published in 1888, this book contains the Latin text of the 21st book of the monumental history of Rome by Titus Livius, dealing with the beginning of the Second Punic War and Hannibal's crossing of the Alps. The history is prefaced with an introduction to Livy's sources and a guide to his dense style.

Pride of Carthage

Trebia. Trasimene. Cannae. With three stunning victories, Hannibal humbled Rome and nearly shattered its empire. Even today Hannibal's brilliant, if ultimately unsuccessful, campaign against Rome during the Second Punic War (218-202 BC) make him one of history's most celebrated military leaders. This biography by Cornelius Nepos (c. 100-27 BC) sketches Hannibal's life from the time he began traveling with his father's army as a young boy, through his sixteen-year invasion of Italy and his tumultuous political career in Carthage, to his perilous exile and eventual suicide in the East. As Rome completed its bloody transition from dysfunctional republic to stable monarchy, Nepos labored to complete an innovative and influential collection of concise biographies. Putting aside the detailed, chronological accounts of military campaigns and political machinations that characterized most writing about history, Nepos surveyed Roman and Greek history for distinguished men who excelled in a range of prestigious occupations. In the exploits and achievements of these illustrious men, Nepos hoped that his readers

would find models for the honorable conduct of their own lives. Although most of Nepos' works have been lost, we are fortunate to have his biography of Hannibal. Nepos offers a surprisingly balanced portrayal of a man that most Roman authors vilified as the most monstrous foe that Rome had ever faced. Nepos' straightforward style and his preference for common vocabulary make *Life of Hannibal* accessible for those who are just beginning to read continuous Latin prose, while the historical interest of the subject make it compelling for readers of every ability.

Cannae

'no one else in our times has attempted to write a universal history' Polybius' ambitious goal was to describe how Rome conquered the Mediterranean world in less than fifty-three years. This great study of imperialism takes the reader back to Rome's first encounter with Carthage in 264 and forward to her destruction of that renowned city in 146. Polybius, himself a leading Greek politician of the time, emphasizes the importance of practical experience for the writing of political history as well as the critical assessment of all the evidence. He attributes Rome's success to the greatness of its constitution and the character of its people, but also allows Fortune a role in designing the shape of world events. This new translation by Robin Waterfield, the first for over thirty years, includes the first five books in their entirety, and all of the fragmentary Books 6 and 12, containing Polybius' account of the Roman constitution and his outspoken views on how (and how not) to write

history. Brian McGing's accompanying introduction and notes illuminate this remarkable political history. Hannibal Crosses The Alps

According to the ancient sources, Hannibal was nine years old when his father led him to the temple at Carthage and dipped the young boy's hands in the blood of the sacrificial victim. Before those gods, Hannibal swore an oath of eternal hatred toward Rome. Few images in history have managed to capture and hold the popular imagination quite like that of Hannibal, the fearless North African, perched on a monstrous elephant, leading his mercenaries over the Alps, and then, against all odds, descending the ice-covered peaks to challenge Rome in her own backyard for mastery of the ancient world. It was a bold move, and it established Hannibal as one of

history's greatest commanders. But this same brilliant tactician is also one of history's most tragic figures; fate condemned him to win his battles but not his war against Rome. An internationally recognized expert on Hannibal for nearly thirty years, historian John Prevas has visited every Hannibal-related site and mountain pass, from Tunisia to Italy, Spain to Turkey, seeking evidence to dispel the myths surrounding Hannibal's character and his wars. Hannibal's Oath is an easily readable yet comprehensive biography of this iconic military leader--an epic account of a monumental and tragic life.
