"Just as the Cuban combatants in Angola set an example that can never be erased, the heroic actions of Cuba's army of white coats will occupy a place of honor." FIDEL CASTRO, OCTOBER 2014In 2014 three West African countries were hit by the largest epidemic on record of the deadly Ebola virus. In response to an international call for help, Cuba's revolutionary socialist government provided what was needed most-and what no other country even tried to deliver.In a matter of weeks, more than 250 volunteer Cuban doctors, nurses, technicians, and public health specialists were on the ground providing hands-on care to thousands of desperately ill human beings and their traumatized families and communities.By mid-2015 the Ebola epidemic in Liberia, Sierra Leone, and Guinea had been virtually eradicated.The discipline, courage, sense of humor, and pride of these Cuban volunteers rings throughout the firsthand accounts recorded here. Their actions showed the world the kind of men and women only a deep-going socialist revolution can produce.

Spaces of Security and Insecurity

Now in paperback--the timely and terrifying investigation into the dark underworld of biological weapons from the #1 "New York Times" bestselling author of "The Hot Zone."

Red Zone

Witty, insightful reflections on twentysomething struggles from "a writer beyond gifted and generous" (Heidi Julavits). Flailing in jobs, failing at love, getting addicted and un-addicted to people, food, and drugs—I'll Tell You in Person is a disarmingly frank account of attempts at adulthood and all the less than perfect ways we get there. Chloe Caldwell has an

unsparing knack for looking within and reporting back what's really there, rather than what she'd like you to see. "I couldn't stop reading this book, and when I was finished I kept looking around to see where my awesome new friend went . . . I love this person's life, and I love the way she writes about it—funny and blunt and chatty and truthful." —Michelle Tea "I'll read anything Chloe Caldwell writes. She's a rare bird: fearless, dark, prolific, unpretentious, and truly honest." —Elisa Albert "Her work is never less than fascinating." —Brooklyn Magazine

Red Zone

Provides unique insight into the lives of ordinary Iraqis, American soldiers, peace activists, and journalists in Iraq--both before the March 2003 U.S. invasion and afterward--through the lens of a truly "unembedded" journalist and peace activist.

Red Zone Blues

Red Zone Prime

The "Red Zone." The last 20 yards from the opponent's goal line. It's difficult to score there because the defending team can concentrate its efforts. Likewise, the offensive team has less area in which to maneuver. It takes the focused and precise execution of all players doing their assigned tasks to advance the ball in the Red Zone and score. In business and in every other area of life, we encounter many Red Zones-situations where the pressure is on and our "wiggle room" is limited. It's there where we have to draw on preparation, experience, and strength of character if we hope to reach our objective. We need a solid game plan -- and that's exactly what Scoring in the Red Zone provides. Through personal anecdotes, illustrations from sports, and timeless wisdom, Spencer Tillman challenges you and your team to win when the pressure is on.

Democrats in the Red Zone

Collects Avengers #65-70. When the Red Skull infiltrates the United States government, he authorizes a biological weapon to be released from the peaks of Mount Rushmore, and it is up the Avengers to contain it!

Greening in the Red Zone

This book is an autobiography of a Russian-trained military doctor now conductin US training for emergency preparedness

against WMD, and his spiritual journey from a godless nation to the US.

Leaving the Red Zone

The Recovery Book

The second edition of the essential guide, updated with new research and observations to help twenty-first century organizations create models for effective collaboration. Collaborative skills have never been more important to a company's success and these skills are essential for every worker today. Radical Collaboration is a how-to-manual for creating trusting, cooperative environments, and transforming groups into motivated and empowered teams. James W. Tamm and Ronald J. Luyet provide tools that will help you increase your ability to work successfully with others, learn to be more aware of colleagues, and better problem-solve and negotiate. Radical Collaboration is an eye-opener for leaders, managers, HR professionals, agents, trainers, and consultants who are seeking constructive ways of getting the results they want.

Red Zone

NEW YORK TIMES BESTSELLER * An urgent wake-up call about the future of emerging viruses and a gripping account of the doctors and scientists fighting to protect us, told through the story of the deadly 2013-2014 Ebola epidemic "Crisis in the Red Zone reads like a thriller. That the story it tells is all true makes it all more terrifying."--Elizabeth Kolbert, Pulitzer Prize-winning author of The Sixth Extinction From the #1 bestselling author of The Hot Zone, now a National Geographic original miniseries . . . This time, Ebola started with a two-year-old child who likely had contact with a wild creature and whose entire family quickly fell ill and died. The ensuing global drama activated health professionals in North America, Europe, and Africa in a desperate race against time to contain the viral wildfire. By the end--as the virus mutated into its deadliest form, and spread farther and faster than ever before--30,000 people would be infected, and the dead would be spread across eight countries on three continents. In this taut and suspenseful medical drama, Richard Preston deeply chronicles the outbreak, in which we saw for the first time the specter of Ebola jumping continents, crossing the Atlantic, and infecting people in America. Rich in characters and conflict--physical, emotional, and ethical--Crisis in the Red Zone is an immersion in one of the great public health calamities of our time. Preston writes of doctors and nurses in the field putting their own lives on the line, of government bureaucrats and NGO administrators moving, often fitfully, to try to contain the outbreak, and of pharmaceutical companies racing to develop drugs to combat the virus. He also explores the charged ethical dilemma over who should and did receive the rare doses of an experimental treatment when they became available at the peak of the disaster. Crisis in the Red Zone makes clear that the outbreak of 2013-2014 is a harbinger of further, more

severe outbreaks, and of emerging viruses heretofore unimagined--in any country, on any continent. In our ever more interconnected world, with roads and towns cut deep into the jungles of equatorial Africa, viruses both familiar and undiscovered are being unleashed into more densely populated areas than ever before. The more we discover about the virosphere, the more we realize its deadly potential. Crisis in the Red Zone is an exquisitely timely book, a stark warning of viral outbreaks to come.

Red Zone, Blue Zone

Drawing on critical geopolitics and related strands of social theory, this book combines new case studies with theoretical and methodological reflections on the geographical analysis of security and insecurity. It brings together a mixture of early career and more established scholars and interprets security and the war on terror across a number of domains, including: international law, religion, migration, development, diaspora, art, nature and social movements. At a time when powerful projects of globalization and security continue to extend their reach over an increasingly wide circle of people and places, the book demonstrates the relevance of critical geographical imaginations to an interrogation of the present.

The Red Zone

Bestselling true crime writer Aphrodite Joneshocking new information behind the San Francisco dog mauling of Diane Whipple and the trial that has captured the nation's attention for over a year. In January 2001, Diane Alexis Whipple bled to death in the hallway of her ritzy Pacific Heights apartment building when she was mauled by two Presa Canarios, a vicious breed of attack dog imported from the Canary Islands. After the lethal attack, animal experts testified that the dogs could not have been stopped, explaining that they had entered a frenzy called the "Red Zone." New York Times bestselling author Aphrodite Jones shows that the mauling was only one part of a frightening story involving obsession, bestiality, and illegal dog rings. The dogs belonged to Whipple's neighbors, lawyers Marjorie Knoller and Robert Noel, who had been keeping them for a leader of the notorious prison gang the Aryan Brotherhood. Jones takes us deep into the bizarre world of Paul Dornfelder, a Hannibal Lechter-type character who actually owned the dogs, Bane and Hera. She explains how Noel and Knoller, after being warned about these killer dogs, brought them to the heart of San Francisco, leading the dogs eventually to murder an innocent next-door neighbor. Jones also reveals the shocking L.A.-area whereabouts of the offspring of Bane, the dog most directly involved in the mauling. Jones is a masterful investigator and writer who has interviewed the complete cast of characters--including Robert Noel and Marjorie Knoller during their imprisonment--and can now tell the full story of what happened in that apartment hallway. Red Zone is a riveting, page-turning account of this news-making story that takes us deep into the relationship between man and animal.

America in the Red Zone

Efram is new to Troy, Ohio, a town where football is everything. And as soon as he sets foot in Troy Central High, the school's head coach takes notice of Efram's perfect football build. Suddenly Efram is gearing up for practice—even though he has never played the game. Flick is too small to run for a touchdown or sack a quarterback. And with his mohawk and outsider attitude, he's not exactly a team player. But he notices things on the football field that most people can't see. When Flick and Efram team up, they'll show Troy Central High a whole new way to win.

#3 The Option

Most of us fear and dread conflict, at home or at work. But conflict can be your ally, not your enemy. Conflict doesn't have to tear your family or organization apart. Using the story of a family business leader embroiled in generational conflict, Red Zone, Blue Zone shows how to navigate conflict in a way that is healthy and leads to enhanced relationships, self-awareness, and greater leadership success. Practical response activities and personal reflection questions help the reader understand the sources of conflict, have a working command of conflict navigation principles, and be equipped to help others navigate conflict in their own lives. In Red Zone, Blue Zone readers will learn skills such as: Questioning Listening Pacing Reframing

The Red Zone

Can you tell the difference between a distraction and a blessing? It should be simple, but sometimes what we think is a distraction can actually be a turning of the tide required to bring life full circle, to a place of blessing. Meet Trent Bailey, who is fighting for the right to continue his stellar professional football career after enduring striking legal woes in the recent past. Trent cannot and will not blow his second chance for anyone; after all, this is the blessing he's been praying for. After receiving confirmation that staying focused is all he needs, it's what he aims to do. No distractions. That's until he bumps into two unexpected overnight guests. Jade Matthews is doing everything she can for herself and her young son, Kyree. After journeying through her own bumps in the road, she's finally getting it together. She's doing what she has to do to make sure her family of two stays afloat. Life's setbacks won't stop Jade from providing for her little one, even though she fumbles each pass thrown at her. What starts out as a temporary favor turns into rapid passion. There's one agenda here, but getting to the same meeting point has never been more difficult. Fighting their way through trust and self-esteem issues, the two must meet in the right zone; the red zone, where you may think you're safe, but life has a way of intercepting blessings and turning the tide.

Avengers

When ace pilot Alan Richards agrees to deliver some passengers to Colombia, this last-minute decision turns his near-perfect life into a mortal nightmare.

The Hot Zone

" a curriculum geared toward helping students gain skills in consciously regulating their actions, which in turn leads to increased control and problem solving abilities. Using a cognitive behavior approach, the curriculum's learning activities are designed to help students recognize when they are in different states called "zones," with each of four zones represented by a different color. In the activities, students also learn how to use strategies or tools to stay in a zone or move from one to another. Students explore calming techniques, cognitive strategies, and sensory supports so they will have a toolbox of methods to use to move between zones. To deepen students' understanding of how to self-regulate, the lessons set out to teach students these skills: how to read others' facial expressions and recognize a broader range of emotions, perspective about how others see and react to their behavior, insight into events that trigger their less regulated states, and when and how to use tools and problem solving skills. The curriculum's learning activities are presented in 18 lessons. To reinforce the concepts being taught, each lesson includes probing questions to discuss and instructions for one or more learning activities. Many lessons offer extension activities and ways to adapt the activity for individual student needs. The curriculum also includes worksheets, other handouts, and visuals to display and share. These can be photocopied from this book or printed from the accompanying CD."--Publisher's website.

Breakthrough

Science and socialized health care continue to wage a diabolical struggle that's hurting the overall health of the nation. Meanwhile, we're receiving conflicting signals about our collective health, with some studies predicting we'll live longer and other studies showing that obesity and disease will cut our lives short. Among the American population, 66 percent of people exercise fewer than ten minutes per week, 45 percent do not read food labels, and 25 percent use some form of mind-altering chemicals. Most Americans don't even have long-term care insurance or a financial plan for nursing home care. In this self-health guide, Jerry Rhoads, the President and CEO of All-American Care—a long-term care firm specializing in restorative care—cuts through the confusion and provides solutions that boost personal wellness. You can learn how to make time to exercise, determine whether Obama Care is a solution or an added burden, take advantage of tax incentives that promote a healthy lifestyle, and improve your relationships with loved ones. Get the facts you need in order to understand the problem, and take steps to ensure that you can enjoy a healthy life even when we see America in the Red

Zone.

The Zones of Regulation

All-Star linebacker Frank Kelly is as well-known for his off-the-field hits as he is for his on-field ones. When a dance club brawl ends with him in handcuffs again, he's rescued by a well-connected woman who can get the charges dropped in exchange for a small favor. If he'll agree to play the part of a doting boyfriend for two months, she'll keep him out of the slammer and help restore his reputation. Kiana Dyer may be the daughter of a Hall of Fame football player, but the charity organization she took over when he died isn't getting the media attention she'd hoped for. A staged romance with Frank Kelly is just the ticket she needs to get in the spotlight. As the lines between fake and real start to blur, she begins to wonder if bailing him out was the best call she's ever made. Just when everything seems to be falling perfectly in place, scandal surrounds her charity, and she's the one left scrambling to clear her name. Recommended for those who like: Sports Romance Interracial or Multicultural Romance BWWM Southern Romance (Atlanta) Bad Boy-Good Girl Opposites Attract

Love in the Red Zone

Explains what recovering addicts and their families will face during each stage, includes information on groups, and answers questions

Radical Collaboration

On any other team, Gary Jayo would be a starting quarterback. But because he plays for the Troy Central High Trojans, he lives his life in the shadow of Shane Hunter. Shane is a high school football superstar, and he doesn't mind rubbing it in Gary's face. After Gary records a video of Shane driving drunk, he decides that even a star QB isn't scandal-proof. He hatches a plan to expose Shane and take the starter's spot. But will Troy's head coach try to protect his top player? And when Gary discovers the cause of Shane's dangerous behavior, will he change his mind?

The Demon in the Freezer

Creation and access to green spaces promotes individual human health, especially in therapeutic contexts among those suffering traumatic events. But what of the role of access to green space and the act of creating and caring for such places in promoting social health and well-being? Greening in the Red Zone asserts that creation and access to green spaces confers resilience and recovery in systems disrupted by violent conflict or disaster. This edited volume provides evidence for this assertion through cases and examples. The contributors to this volume use a variety of research and policy frameworks to explore how creation and access to green spaces in extreme situations might contribute to resistance, recovery, and resilience of social-ecological systems.

Red Zone

"Building on his classic bestseller Buddha's Brain, New York Times bestselling author and senior fellow of the Greater Good Science Center at UC Berkeley Rick Hanson uses his Buddhist analysis of the mind as a roadmap for strengthening the neural circuitry of deep calm, contentment, kindness, and wisdom--qualities we all need to succeed in the face of adversity. Most books about transformations of consciousness are theoretical or religious, typically full of jargon, pep talks, and calls to believe on faith alone. Instead, this is a book of practice, immediately actionable with simple, powerful guided meditations--and despite this grounded approach, its promise is radically life-changing. This book is nothing short of a path to transcendence, a method for liberating the mind and heart, discovering freedom from suffering, and engaging life with a kind heart and inner peace. A step-by-step path of practical ideas and tools, Dr. Hanson guides readers with his usual encouragement, good humor, and personal examples"--

In the Red Zone

Welcome to the new world. Things have changed just a bit. Big Brother's not only monitoring important things like what toilet paper you buy—it now has direct access to everything you see thanks to the mandatory implant you get at birth. And Friday Jones has seen something she wishes she hadn't. Now she has all kinds of undesirables after her—some to straight

up kill her and others who want to steal what's locked in her head. So, she'll need the help of a ruthless mercenary, Striker, if she has any chance at survival. That he's a jerk, who she wants to punch in the face, well a dying woman sometimes has to make tough choices. Striker's special abilities have kept him in the shadows for a reason. He has no interest in getting mixed up with the smart-mouthed, hard-headed women no matter how his body reacts. But then he discovers what's in her head and all bets are off.

Scoring in the Red Zone

Examines the court-imposed territorial restrictions and bail and sentencing conditions that are increasingly issued in criminal proceedings. This will interest academics in law, socio-legal studies, urban studies, geography, and criminology and be of use to policy-makers and practitioners working in criminal procedure and court reform.

Red Zones

The bestselling landmark account of the first emergence of the Ebola virus. Now a mini-series drama starring Julianna Margulies, Topher Grace, Liam Cunningham, James D'Arcy, and Noah Emmerich on National Geographic. A highly infectious, deadly virus from the central African rain forest suddenly appears in the suburbs of Washington, D.C. There is no cure. In a few days 90 percent of its victims are dead. A secret military SWAT team of soldiers and scientists is mobilized to stop the outbreak of this exotic "hot" virus. The Hot Zone tells this dramatic story, giving a hair-raising account of the appearance of rare and lethal viruses and their "crashes" into the human race. Shocking, frightening, and impossible to ignore, The Hot Zone proves that truth really is scarier than fiction.
