Southern Appalachian native Dan Levenson and Mel Bay Publications present Clawhammer Banjo from Scratch - A Guide for the Claw-less! This book teaches clawhammer banjo the way we play, not the way others say. It really begins as though you really have NO knowledge of how to play the five string banjo clawhammer style. Based on Dan's innovative Meet the Banjo program (where Dan brings 15 banjos and teaches players who may have never held a banjo), this book assumes no prior experience. Beginning at the beginning, Dan presents a brief history of the 5-string banjo then goes over the parts of the banjo, holding the banjo, right and left hand positions and his basic clawhammer strum. Even the strum is broken down into the steps of the finger and thumb. You are guided through the chords, the scale and then the individual notes of each of 12

jam session favorite tunes from scratch. Includes 2 reference CD's with all exercises, tunes (slow and up to speed), and a fiddle version of each tune.

The Guinness Encyclopedia of Popular Music

This shorter version of the bestselling WORLDS OF MUSIC provides much of the authoritative coverage of the comprehensive version in a format that's accessible to students without any background or training in music. Using a case-study approach, the text presents in-depth explorations of music from several cultures around the world. The authors, all working ethnomusicologists, base their discussions of music-cultures on their own fieldwork and give students a true sense of both the music and culture that created it. Editor Jeff Todd Titon's opening chapter introduces students to ethnomusicology and relates each chapter's music to the fundamentals of music in a worldwide context, while the final chapter invites students to undertake a fieldwork research project that increases their understanding of music in daily life. Authentic recordings from the authors' fieldwork are keyed to the text and available online, giving students access to a wide range of music-cultures. "Commercializing and exploiting applied Information and Communication Technologies (ICT) research results is critical in reducing the global Digital Divide and building a sustainable Knowledge Economy. A major challenge for leveraging ICT around the world is taking account of local and regional differences. This requires meaningful cross-border communication between researchers, government and industry, as well as strategic dialogues in relation to regulation and policy. While it is clear that the Digital Divide can be challenging in Europe and the Americas, clearly there are greater difficulties to be overcome in Asia and Africa. That acknowledged, it is often striking how once basic infrastructure and regulatory issues have been addressed and how learning from the experiences of others can enhance the impact of leveraging ICT. This book brings together a comprehensive collection of over 210 in ten broad thematic areas. These are: ICT for Networked Enterprise; e-Government and e-Democracy; eHealth, Collaborative Working Environments; Networked, Smart and Virtual Organizations; SME Issues; Technology Enhanced Learning and ICT Skills; Security and Identity Management; and Mobility and Digital Content. Papers within each thematic area are grouped as Issues, Applications and Case Studies, reflecting their primary focus."

The Illuminations Reader

From beloved CBS Sunday Morning correspondent and humorist Mo Rocca, an entertaining and rigorously researched book that celebrates the dead people who have long fascinated him. Mo Rocca has always loved obituaries—reading about the remarkable lives of global leaders, Hollywood heavyweights, and innovators who changed the world. But not every notable life has gotten the send-off it deserves. His quest to right that wrong inspired Mobituaries, his #1 hit podcast. Now with Mobituaries, the book, he has gone much further, with all new essays on artists, entertainers, sports stars, political pioneers, founding fathers, and more. Even if you know the names, you've never understood why they matter until now. Take Herbert Hoover: before he was president, he was the "Great Humanitarian," the man who saved tens of millions from starvation. But after less than a year in the White House, the stock market crashed, and all the good he had done seemed to be forgotten. Then there's Marlene Dietrich, well remembered as a screen goddess, less remembered as a great patriot. Alongside American servicemen on the front lines during World War II, she risked her life to help defeat the Nazis of her native Germany. And what about Billy Carter and history's unruly presidential brothers? Were they ne'er-do-well liabilities...or secret weapons? Plus, Mobits for dead sports teams, dead countries, the dearly departed station wagon, and dragons. Yes, dragons. Rocca is an expert researcher and storyteller. He draws on these skills here. With his dogged reporting and trademark wit, Rocca brings these men and women back to life like no one else can. Mobituaries is an insightful and unconventional account of the people who made life worth living for the rest of us, one that asks us to think about who gets remembered, and why.

Worlds of Music, Shorter Version

Based on the premise that entrepreneurship can be studied systematically, this book provides a single, practical volume that presents the theory and practice of entrepreneurship and starting new businesses. Providing practical applications of new venture techniques, this book's resource-based point of view yields practical, hands-on information such as acquiring and using resources and assets for a competitive advantage. Focusing on the business plan, the book demonstrates how to put together a document for guidance and financing. It also illustrates problems and opportunities faced by entrepreneurs as well as important day-to-day issues. An essential resource for every professional and business owner as well as for everyone seeking to start a new business venture."

This research monograph explores the rapidly expanding field of networked music making and the ways in which musicians of different cultures improvise together online. It draws on extensive research to uncover the creative and cognitive approaches that geographically dispersed musicians develop to interact in displaced tele-improvisatory collaboration. It presents a multimodal analysis of three tele-improvisatory performances that examine how cross-cultural musician's express and perceive intentionality in these interactions, as well as their experiences of distributed agency and tele-presence. Tele-Improvisation: Intercultural Interaction in the Online Global Music Jam Session will provide essential reading for musician's, postgraduate students, researchers and educators, working in the areas of telematic performance, musicology, music cognition, intercultural communication, distance collaboration and learning, digital humanities, Computer Supported Cooperative Work and HCI.

The Charlie Parker Companion

Drawing upon theories of landscape and performance, this work weaves together existing tourism literature with new scholarship to forge a geographically informed theory of tourism. Such a theory integrates the ways in which places are co-produced, circulated, interpreted, experienced, and performed for and by tourists, tourism boards, and even as everyday spaces. Bringing together theories of ritual, Peircean semiotics, ideology, and performance, the authors blend the often separate literatures of tourism sites and touristic practices. Whereas most tourism texts focus on a part of the 'tourism equation'-the tourism site, or the tourist experience-a geographic theory of tourism brings these constituent parts together in thinking about notions of place. Place processes are central to geography as well as tourism studies because tourism facilitates encounters with distinct locations. As this book argues, considering tourism as performative draws disparate areas of tourism theory together to better understand the ways tourism happens in and across places.

Collaborative Research in Organizations

Design occurs in a rich social context where the effectiveness and efficiency of social interaction and collective performance are key to successful outcomes. Increasingly, design is being explored and developed as a collective, collaborative, participatory, and even community process. The heightened recognition of designing as a social process has stimulated interest in collaborative design. This book contains the proceedings of the international conference "CoDesigning 2000" held in Coventry, England, September 2000. During this meeting exponents from a wide range of design domains came together to present and discuss perspectives on and new knowledge and understanding of collaborative design, and the evidence for enhanced design performance through collaboration. Within this volume different motivations for, conceptions of, and findings about collaborative design are addressed in 50 contributions by different research groups. Structured into 6 sections according to the main fields of interest, it provides a survey of the state of scientifically based knowledge and trends emerging from collaborative design research and their implications for a wide range of domains.

"Charlie Parker was a legendary alto saxophonist, combo leader, and composer. Beginning in the mid-'40s in New York City, he worked with trumpeter Dizzy Gillespie and pianist Thelonious Monk, among others, to create a new style of jazz that would become known as bebop. His dazzling technique, lightning speed, innovative solos, and sharp tone were all emulated by younger players. His tragic death due to drug abuse led him to become a legendary figure in the jazz world - another young, creative player cut down in his prime. This book gathers all of the interviews ever given by Parker during his lifetime, plus early reviews, memoirs, and articles that give an overview of one of the most important lives and careers in jazz."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Judy Carter, guru to aspiring comedy writers and stand-up comics, tells all about the biz of being funny and writing funny in this bright, entertaining, and totally practical guide on how to draw humor from your life and turn it into a career. Do you think you're funny? Do you want to turn your sense of humor into a career? If the answer is yes, then Judy Carter's *The Comedy Bible* is for you. The guru to aspiring stand-up comics provides the complete scoop on being—and writing—funny for money. If you've got a sense of humor, you can learn to make a career out of comedy, says Judy Carter. Whether it's creating a killer stand-up act, writing a spec sitcom, or providing jokes for radio or one-liners for greeting cards, Carter provides step-by-step instructions in *The Comedy Bible*. She helps readers first determine which genre of comedy writing or performing suits them best and then directs them in developing, refining, and selling their work. Using the hands-on workbook format that was so effective in her bestselling first book, *Stand-Up Comedy: The Book*, Carter offers a series of day-by-day exercises that draw on her many years as a successful stand-up comic and the head of a nationally known comedy school. Also included are practical tips and advice from today's top comedy professionals—from Bernie Brillstein to Christopher Titus to Richard Lewis. She presents the pros and cons of the various comedy fields—stand-up, script, speech

and joke writing, one-person shows, humor essays—and shows how to tailor your material for each. She teaches how to find your “authentic” voice—the true source of comedy. And, perhaps most important, Carter explains how to take a finished product to the next level—making money—by pitching it to a buyer and negotiating a contract. Written in Carter’s unique, take-no-prisoners voice, *The Comedy Bible* is practical, inspirational, and funny.
