### Ethics for Life

The central volume in Ivan Doig's acclaimed Montana trilogy, *Dancing at the Rascal Fair* is an authentic saga of the American experience at the turn of this century and a passionate, portrayal of the immigrants who dared to try new lives in the imposing Rocky Mountains. ### El Bigote Rubio

A Los Angeles Times Page-Turner "populated with sympathetic, well-drawn characters ouston also delivers beautiful descriptions of the bucolic setting, along with plenty of sharply rendered fly-fishing scenes." --Booklist It's the dead of winter in Loon Lake when a wealthy widow is run down and killed by a logging truck on an icy street. The truck driver insists he saw a man shove the woman into the path of his truck. A lone witness who may have seen the man who shoved the victim is soon found dead--drowned in icy waters where he was ice fishing. Within hours, Police Chief Lewellyn Ferris finds herself dealing with malicious family members related to the dead woman, a cache of grisly paintings, and strange disturbances on the land surrounding the widow's contemporary mansion--all of which point to various people who may have wanted her dead. Lew recruits her close friend and fellow flyfisherman, retired dentist "Doc" Osborne, for his forensic and interrogation skills. Meanwhile, Ray Pradt, ice fishing guide and expert tracker, helps with the initial investigation even as he threatens to engage in an inappropriate relationship with a key witness. Lew's life and career is further

complicated when a young woman calls, convinced that Lew is her birth mother.

## **The Ology**

The New York Times bestselling inspirational story of impoverished children who transformed themselves into world-class swimmers. In 1937, a schoolteacher on the island of Maui challenged a group of poverty-stricken sugar plantation kids to swim upstream against the current of their circumstance. The goal? To become Olympians. They faced seemingly insurmountable obstacles. The children were Japanese-American and were malnourished and barefoot. They had no pool; they trained in the filthy irrigation ditches that snaked down from the mountains into the sugarcane fields. Their future was in those same fields, working alongside their parents in virtual slavery, known not by their names but by numbered tags that hung around their necks. Their teacher, Soichi Sakamoto, was an ordinary man whose swimming ability didn't extend much beyond treading water. In spite of everything, including the virulent anti-Japanese sentiment of the late 1930s, in their first year the children outraced Olympic athletes twice their size; in their second year, they were national and international champs, shattering American and world records and making headlines from L.A. to Nazi Germany. In their third year, they'd be declared the greatest swimmers in the world. But they'd also face their greatest obstacle: the dawning of a world war and the cancellation of the Games. Still, on the battlefield, they'd become the 20th century's most celebrated heroes, and in 1948, they'd have one last chance for Olympic glory. They were the Three-Year Swim Club. This is their story. \*Includes Reading Group Guide\*

Nero's palace, the Domus Aurea (Golden House), is the most influential known building in the history of Roman architecture. It has been incompletely studied and poorly understood ever since its most important sections were excavated in the 1930s. In this book, Larry Ball provides systematic investigation of the Domus Aurea, including a comprehensive analysis of the masonry, the design, and the abundant ancient literary evidence. Highlighting the revolutionary innovations of the Domus Aurea, Ball also outlines their wide-ranging implications for the later development of Roman concrete architecture.

Shana Frazin and Katy Wischow passionately believe in the need to help students develop strong talk skills across the school day, in every subject, to prepare them for their academic lives and lives as active citizens outside of school. Using a unique "cycle" for talk that's similar to the writing process (generating, choosing, developing, acting, and reflecting), they name the predictable things we do most times we engage in a conversation, and show us how we can teach into those parts. Shana and Katy provide practical strategies for teaching four important purposes for talk that exist both in the classroom and in the real world: - talking to build relationships - talking to play with ideas - talking to clarify, analyze, and argue - talking to report. They offer a clear description of each purpose, the "when and how" to teach into those purposes, and what to do when things go awry. Classroom video brings the content to life showing what the talk looks and sounds like in action.

## **Unlocking the Power of Classroom Talk**

The bestselling author of *Anatomy of Misfit* and *The Fall of Butterflies*, Andrea Portes, is back with another irresistible snarky heroine in *Liberty*. What is a hero? Paige Nolan knows. Edward Raynes, the young man who exposed America's unconstitutional spying techniques, is a hero, even if half the dum-dums in the country think he's a traitor. Or Paige's parents, journalists who were captured by terrorists while telling stories of the endangered and oppressed. They were heroes,

too. Were. . . or are—no one has ever told Paige if they're still alive, or dead. Not heroes? Anyone in the government who abandoned her parents, letting them rot somewhere halfway across the world. And certainly not Paige herself, who despite her fluency in five languages and mastery of several obscure martial arts (thanks, Mom!) could do nothing to save them. Couldn't, that is, until she's approached by Madden Carter, an undercover operative who gives her a mission—fly to Russia, find Raynes, and discover what other government secrets he's stockpiled. In exchange, he'll reopen the case on her missing parents. She's given a code name and a cover as a foreign exchange student. Who is a hero? Not Paige Nolan, but maybe, just maybe, Liberty is.

## **The BetterPhoto Guide to Exposure**

This book focuses on the expanding contemporary art scene in Syria, particularly Damascus, during the first decade of the twenty-first century. The decade was characterized by a high degree of experimentation as young artists began to work with artistic media that were new in Syria, such as video, installation and performance art. They were rethinking the role of artists in society and looking for ways to reach audiences in a more direct manner and address socio-cultural and socio-political issues. The Contemporary Art Scene in Syria will be of interest to scholars of global and Middle Eastern art studies, and also to scholars interested in the recent social and cultural history of Syria and the wider Middle East.
