Broken April

The Vital Center

A defense of liberal democracy argues that the failures of free society enhance the appeal of totalitarian solutions and calls for a resurgence of faith in democracy based on a more shrewd understanding of human limitations.

The Future of Leadership Development

Through real-life single and multiple case studies, Learning to Lead Together addresses how principals and their staffs struggle with the challenge of shared leadership, how they encourage teacher growth and development, and how shared leadership can lead to higher levels of student learning. The cases show how shared leadership, a powerful adaptive change, is socially constructed across contexts and evolves as teachers and principals learn how to work together. The book also illustrates how principal preparation and professional development programs that utilize problem-based learning and provide opportunities for genuine collaboration with colleagues can provide school leaders with the skills they need to share leadership and accountability effectively.

Freedom of Expression and the Media

In Central and Eastern European countries, inequalities for Roma families living in marginalized communities start early and are striking. Some of these inequalities reflect hard-wired family circumstances such as being born in poverty. Others reflect lack of opportunities such as limited access to those basic goods and services that are necessary not only for realizing one's potential in life, but also for living with dignity. Gaps between Roma and non-Roma widen over the lifecycle in a way that reinforces and perpetuates disadvantage and translates into significantly unequal outcomes, despite the fact that Roma report having similar aspirations to those of their non-Roma neighbors. Promoting equal opportunities for disadvantaged Roma is not only an imperative for societies that want to call themselves fair, but it is also a smart economic choice, especially in those countries where populations are aging rapidly. Investing early, with a particular emphasis on supporting healthy and cognitive development for disadvantaged Roma children, is likely to go a long way in promoting fair chances. However, leveling the playing field in childhood is likely not enough: disadvantaged Roma continue being exposed to unequal opportunities at key nodes in their lives, such as when pursuing education or when looking for a job. Therefore, it is as important that a broader set of policies address some of the circumstances in which a large share of Roma children grow up, including access to employment and decent living conditions for their families. Implementing interventions that help overcome these interrelated barriers will require strong ownership at the national level, coordinated policies across different ministries and government levels, and an integrated delivery system that is grounded in approaches that are customized to local conditions and implemented in a participatory manner. Good practices in Europe and elsewhere show that inclusion of the most disadvantaged - including many Roma - is possible and the current programming cycle for European Funds represents a unique opportunity to fund such interventions.

Gender Matters

Originally published in 1971, and now published with a new foreword, this is a book of enduring value and lasting relevance. The authors detail the application, history, and controversies surrounding the Planning, Programming, and Budgeting System (PPBS), used to evaluate military needs and to choose among alternatives for meeting those needs.

Kanuni i Lekë Dukagjinit

Translation studies as a discipline has grown enormously in recent decades. Contributions to the discipline have come from

a variety of fields, including machine translation, history, literature, philosophy, linguistics, terminology, signed language interpreting, screen translation, translation pedagogy, software localization and lexicography. There is evidently great diversity in translation studies, but is there much unity? Have the different branches of translation studies become so specialized that they can no longer talk to each other? Would translation studies be strengthened or weakened by the search for or the existence of unifying principles? This volume brings together contributions from feminist theory, screen translation, terminology, interpreting, computer-assisted translation, advertising, literature, linguistics, and translation pedagogy in order to counter the tendency to partition or exclude in translation studies. Machine translation specialists and literary translators should be found between the same book covers, if only because the nomadic journeying of concepts is often the key to intellectual discovery and renewal. Celebrating our differences does not mean ignoring what we have in common. Unity in Diversity offers a valuable overview of the current state of translation studies from both theoretical and practical perspectives and makes an important contribution to debates on the future direction of translation studies.

Terminology

The second edition of this best-selling book is as lively and accessible as the first edition. Advice, support and both active and reflective tasks take the students through the stages of research as well as encouraging them to consider social and cultural issues, such as working with their supervisor and other researchers.

Learning to Lead Together

Freedom of expression – particularly freedom of speech – is, in most Western liberal democracies, a well accepted and long established, though contested constitutional right or principle. Whilst based in ethical, rights-based and political theories such as those of: justice, the good life, personal autonomy, self determination, and welfare, as well as arrangements over legitimate government, pluralism and its limits, democracy and the extent and role of the state, there is always a lack of agreement over what precisely freedom of expression entails and how it should be applied. For the purposes of this book we are concerned with freedom of expression and the media with regard to the current application of legal standards and self-regulation to journalistic practice.

Second Language Teaching and Learning in the Net Generation

Two destinies intersect in Broken April. The first is that of GJOR, a young mountaineer who (much against his will) has just killed a man in order to avenge the death of his older brother, and who expects to be killed himself in keeping with the provisions of the Code that regulates life in the highlands. The second is that of a young couple on their honeymoon who have come to study the age-old customs of the place, including the blood feud. While the story is set in the early twentieth century, life on the high plateaus of Albania takes life back to the Dark Ages. The bloody shirt of the latest victim is hung up by the bereaved for all to see—until the avenger in turn kills his man with a rifle shot. For the young bride, the shock of this unending cycle of obligatory murder is devastating. The horror becomes personified when she catches a glimpse of GJOR as he wanders about the countryside, waiting for the truce of thirty days to end, and life with it. That momentary vision of the hapless murderer provokes in her a violent act of revulsion and contrition. Her life will be marked by it always.

Unity in Diversity

This is the third edition of this manual which contains updated practical guidance on biosafety techniques in laboratories at all levels. It is organised into nine sections and issues covered include: microbiological risk assessment; lab design and facilities; biosecurity concepts; safety equipment; contingency planning; disinfection and sterilisation; the transport of infectious substances; biosafety and the safe use of recombinant DNA technology; chemical, fire and electrical safety aspects; safety organisation and training programmes; and the safety checklist.

Vergil at 2000

The right to self-determination has been a driving force in international law and politics through much of the post World War II period. In the 1970s it was joined by a number of other human rights attributed to peoples rather than to individuals, including rights to development, peace, a clean environment, and humanitarian assistance. These so-called "third generation solidarity rights" have attracted considerable attention, especially from developing country governments, activists and scholars. In this volume, a group of leading experts examines the current status of the various rights and reflects upon their likely significance in the twenty-first century.

The Postgraduate Research Handbook

REVIEW FROM PREVIOUS EDITION: 'A slim and useful student textbook for English Syntax. Although most of the examples are from English, the book introduces general concepts which provide the necessary tools for a basic syntactic analysis of any language. The book concentrates on topics that will remain useful to the student who does not go on to study linguistics but, say, literature or EFL teaching.' - The Year's Work in English Studies

In this revised and fully updated new edition of his popular textbook, Jim Miller discusses the central concepts of syntax which are applied in a wide range of university courses, in business communication, in teaching and in speech therapy. The book deals with concepts which are central to traditional grammar but have been greatly refined over the past forty years: parts of speech and how to recognise them, constructions and their interrelationships, subordinate clauses and how to recognise the different types, subjects and objects, Agents and Patients and other roles. The book draws out the connections between syntax and meaning and between syntax and discourse; in particular, a new chapter focuses on the analysis of discourse and the final chapter deals with tense, aspect and voice, topics which are central to the construction of texts and are of major importance in second language learning. They are also areas where meaning and grammar interconnect very closely.

Key Features

- Coverage of central themes with a wide application outside the study of syntax
- Explains basic concepts, supported by a glossary of technical terms
- Exercises and sources for further reading provided.

Balkan and South Slavic Enclaves in Italy

Today's young people-the Net Generation-have grown up with technology all around them. However, teachers cannot assume that students' familiarity with technology in general transfers successfully to pedagogical settings. This volume examines various technologies and offers concrete advice on how each can be successfully implemented in the second language curriculum.

When-Clauses and Temporal Structure

The brilliant contributions of Islam to science, art, and culture, are a timeless and precious heritage, which should be historically preserved for future generations. The great achievements of Muslim scholars are rarely if at all acknowledged in formal education, and today their identity, origins and impact remain largely obscure. This collection of papers aims to give readers a brief introduction to the intellectual history of Muslims and the contributions that eminent Muslim scholars have made in certain specific fields of knowledge including basic and applied physical and biological sciences, medicine, legal and political theories and practices, economic and financial concepts, models, and institutions, etc.

"THE CODE OF LEKE DUKAGJINI is a great cultural treasure, comparable to the chapters of The Old Testament." "It provides deep insights into the ancient society of the Albanians, their somber dignity & their magnificent sense of honor."--David Binder, The New York Times. "This legal system was established & passed on to future generations as a common law by Leke Dukagjini, a co-fighter of the legendary Skenderbeg." "The 'Besa' or the 'word of honor' as stated in THE CODE OF LEKE DUKAGJINI which means peace & protection to those whom it is given, has become today an important fighting tool in the political struggle of Kosovo's Albanians against Serb oppression."--Victor Meier, The Frankfurter Allgemeine Zeitung. "The legal Code of the Albanians known by them for a thousand years, is one of the most original in the history of mankind. Among the basic pillars of this code are the equality of men before the code & the non-abuse of justice." "The entire

essence of the legal code of the Albanians is an unparalleled rigorous respect for this basic principle: non-violation of the dignity of a man- his honor, home, & life."--Ismail Kadare, Albanian writer.

Creating Value From Mergers And Acquisitions

Analyzes informality in Latin America, exploring root causes and reasons for and implications of its growth. This book uses two distinct but complementary lenses. It concludes that reducing informality levels and overcoming the "culture of informality" will require actions to increase aggregate productivity in the economy.

The Index for Inclusion

This volume is a collection of new writings dealing with some of the Balkan linguistic varieties spoken in north-eastern, central and southern Italy. It brings together twenty-two papers, some of which investigate the mutual influences between each of these Balkan and South Slavic language varieties and their neighbouring Italian dialects. Other contributions study common tendencies which do not just pertain to local contacts, but which are of greater significance for the history of linguistic and cultural contacts in Italy. All of the chapters here present new empirical findings and reflect the breadth and diversity of current research in the fields of areal linguistics, language variation, Balkan dialectology, language contact, types of Balkan convergences, types of structure transfers, the borrowing of structural patterns, and directions of grammaticalisation.

""Creating Value from Mergers and Acquisitions"" gives an integrated and international perspective. This new book builds on and extends the author's highly successful title ""The Essence of Mergers and Acquisitions"". This is the first book to provide a comparative analysis of the M & A scene in Europe and the US, the two most active markets in the world. The book develops an international and multidisciplinary perspective of M & A, and considers M & A as a process and not a mere transaction. The author draws upon economics, finance, strategy, law and organisational theories to formulate a fiv.

Being Fair, Faring Better

Young's Literal Translation of the Bible is, as the name implies, a strictly literal translation of the Hebrew and Greek texts (from the Textus Receptus and Majority Text). Compiled by Robert Young in 1862, he went on to produce a revised version in 1887 based on the Westcott-Hort text which had been completed in 1885. Young died on October 14, 1888, and the publisher released a New Revised Edition in 1898. Young used the present tense in many places where other translations used the past tense- particularly in narratives. The Preface to the Second Edition states: "If a translation gives a present tense when the original gives a past, or a past when it has a present; a perfect for a future, or a future for a perfect; an a for a the, or a the for an a; an imperative for a subjunctive, or a subjunctive for an imperative; a verb for a noun, or a noun for a verb, it is clear that verbal inspiration is as much overlooked as if it had no existence. THE WORD OF GOD IS MADE VOID BY THE TRADITIONS OF MEN. [Emphasis in original.]" For example, the YLT version of Genesis begins as follows: 1. In the beginning of God's preparing the heavens and the earth--- 2. The earth hath existed waste and void, and darkness on the face of the deep, and the Spirit of God fluttering on the face of the waters, 3. And God saith, 'Let light be;' and light is. 4. And God seeth the light that it is good, and God separateth between the light and the darkness, 5. And God alled to the light 'Day,' and to the darkness He hath called 'Night;' and there is an evening, and there is a morning---day one. Young's Literal Translation in the 1898 Edition also consistently renders the Hebrew Tetragrammaton (the four Hebrew letters usually transliterated YHWH or JHVH that form a biblical proper name of God) throughout the Old Covenant/Testament as "Jehovah", instead of the traditional practice of "LORD" in small capitals, which was used in editions prior to 1898. Young's usage of English present tense rather than past tense has been supported by scholars ranging from the medieval Jewish rabbi Rashi (who advised, "If you are going to interpret [this passage] in its plain sense, interpret it thus: At the beginning of the creation of heaven and earth, when the earth was (or the earth being) unformed and void . . . God said, 'Let there be light.'") to Richard Elliott Friedman in his translation of the Five Books in "The Bible with Sources Revealed" (2002). There is a linked Table of Contents for each book and chapter.

Sustainable Marketing of Cultural and Heritage Tourism

This book aims to comprehensively demonstrate the legal basis of parliamentary ombudsman institutions throughout Europe, analysing them in a comparative way and thereby revealing their organisational and functional diversity. It comprises the results of a research project carried out at the University of Vienna under the direction of the editor which

was also intended to provide an incentive for the discussion of the legal political enhancement of such institutions. The book starts with the comparative legal analysis, followed by forty-nine reports on the ombudsmen of the different European States as well as the European Ombudsman. The reports pursue a uniform scheme of structure to ensure the comparability of information on the various institutions. They were each based on the relevant constitution or statutory act, the responses to the questionnaires which were sent out in the course of the project, as well as the information resulting from the activity reports.

Principles of Demography

Beginning with an overview of terminology, this work goes on to discuss the interdisciplinary nature of the field, the foundations of terminology, terminography, computerized terminology, terminology and standardization, and the role of terminologists in a language service,

Fieseler Storch in Action

This book identifies strategies that are consistently associated with good teaching and presents them within a theoretical framework that explains how they promote students' active and meaningful learning. The book promotes teachers' pedagogical knowledge and their perception of teaching as scholarly, intellectual work, and provides extensive practical advice.

Writing and Computers

Tense is one of the central issues of linguistics, and has been the focus of much attention in recent years. In this book, Declerck offers a detailed discussion of the temporal structures that are expressed by the combination of tense forms with the conjunction when.

Informality

"'Gender Matters' is a manual aimed to assist educators and youth leaders work on issues of gender and gender-based violence with young people. This publication presents theoretical information, methods and resources for education and training activities, along with concrete exercises that users can put into practice in their daily work. Violence is a serious issue which directly affects the lives of many young people. It often results in lasting damage to their well-being and integrity, putting even their lives at risk. Gender-based violence, including violence against women, remains a key human

rights challenge in contemporary Europe and in the world. Working with young people on human rights education is one way of preventing gender-based violence from occurring. By raising awareness on why and how it manifests and exploring its impact on people and in society, gender-based violence will no longer go undetected. Gender really does matter, to women, to men, to young people - to all of us. This manual serves to explore these human rights issues and act upon them."--Book jacket.

Managing Public Expenditure presents a comprehensive and in-depth analysis of all aspects of public expenditure management from the preparation of the budget to the execution, control and audit stages.

The International Ombudsman Yearbook, Volume 10 (2006)

Base your leadership development programs on proven-to-work techniques. In *Building Leaders*, authors Conger and Benjamin examine the very best practices of American and foreign companies to present a comprehensive plan for developing leadership talent at every organizational level. Here, readers will find an in-depth presentation of the specific skill sets that individual managers need in order to lead. They'll also discover which organizational values promote leadership, examine successful strategic interventions, and see what a successful leadership plan looks like. Equally illuminating is the section on plans that are destined to fail, along with the section on the future of leadership that shows readers how to design development programs that are most likely to last.

As with past Constitutional Law supplements, The 2019 Supplement will contain excerpts from recent scholarly articles and books and from Supreme Court decisions during the Court's 2018 Term. Among the new Supreme Court decisions that will be included in the 2019 Supplement will be the following: *Gundy v. United States*, which may well enforce the anti-delegation doctrine for the first time since the 1930s (in Chapter 4 on The Distribution of National Powers). *Timbs v. Indiana*, holding that the excessive fine clause is incorporated against the states (in Chapter 6 on Implied Fundamental Rights). *Lamone v. Benisek*, which will deal with partisan gerrymandering (in Chapter 6 on Implied Fundamental Rights). *Iancu v. Brunetti*, which will address whether the First Amendment protects the use of the word "FUCTION" as a trademark (in Chapter 7 of Freedom of Expression). *Maryland-National Capital Park & Planning Comm'n v. American Humanist Ass'n*, which will address whether the Bladensburg Peace Cross violates the Establishment Clause (in Chapter VIII on The Constitution and Religion).
