In the middle decades of the nineteenth century Jeremiah G. Hamilton was a well-known figure on Wall Street. Cornelius Vanderbilt, America's first tycoon, came to respect, grudgingly, his one-time opponent. The day after Vanderbilt's death on January 4, 1877, an almost full-page obituary on the front of the National Republican acknowledged that, in the context of his Wall Street share transactions, "There was only one man who ever fought the Commodore to the end, and that was Jeremiah Hamilton." What Vanderbilt's obituary failed to mention, perhaps as contemporaries already knew it well, was that Hamilton was African American. Hamilton, although his origins were lowly, possibly slave, was reportedly the richest colored man in the United States, possessing a fortune of \$2 million, or in excess of two hundred and \$50 million in today's currency. In Prince of Darkness, a groundbreaking and vivid account, eminent historian Shane White reveals the larger than life story of a man who defied every convention of his time. He wheeled and dealt in the lily white business world, he married a white woman, he bought a mansion in rural New Jersey, he owned railroad stock on trains he was not legally allowed to ride, and generally set his white contemporaries teeth on edge when he

wasn't just plain outsmarting them. An important contribution to American history, Hamilton's life offers a way into considering, from the unusual perspective of a black man, subjects that are usually seen as being quintessentially white, totally segregated from the African American past.

When the San José mine collapsed outside of Copiapó, Chile, in August 2010, it trapped thirty-three miners beneath thousands of feet of rock for a record-breaking sixty-nine days. The entire world watched what transpired above-ground during the grueling and protracted rescue, but the saga of the miners' experiences below the Earth's surface—and the lives that led them there—has never been heard until now. For *Deep Down Dark*, the Pulitzer Prize-winning journalist Héctor Tobar received exclusive access to the miners and their tales. These thirty-three men came to think of the mine, a cavern inflicting constant and thundering aural torment, as a kind of coffin, and as a church where they sought redemption through prayer. Even while still buried, they all agreed that if by some miracle any of them escaped alive, they would share their story only collectively. Héctor Tobar was the person they chose to hear, and now to tell, that story. The result is a masterwork of narrative journalism—a riveting, at times shocking, emotionally textured account of a singular human event. A *New York Times* bestseller, *Deep Down Dark* brings to haunting, tactile life the experience of being imprisoned inside a mountain of stone, the horror of being slowly consumed by hunger, and the spiritual and mystical elements that surrounded working in such a dangerous place. In its stirring final chapters, it captures the profound way in which the lives of everyone involved in the disaster were forever changed.

Real Estate Fortunes: No Money Down Millionaires: The Untold Story

The New York Times bestseller, now available in paperback—an incredible true story of the top-secret World War II town of Oak Ridge, Tennessee, and the young women brought there unknowingly to help build the atomic bomb. “The best kind of nonfiction: marvelously reported, fluidly written, and a remarkable story. As meticulous and brilliant as it is compulsively readable.” —Karen Abbott, author of *Sin in the Second City* At the height of World War II, Oak Ridge, Tennessee, was home to 75,000 residents, and consumed more electricity than New York City, yet it was shrouded in such secrecy that it did not appear on any map. Thousands of civilians, many of them young women from small towns across the U.S., were recruited to this secret city, enticed by the promise of solid wages and war-ending work. What were they actually doing there? Very few knew. The purpose of this mysterious government project was kept a secret from the outside world and from the majority of the residents themselves. Some wondered why, despite the constant work and round-the-clock activity in this makeshift town, did no tangible product of any kind ever seem to leave its guarded gates? The women who kept this town running would find out at the end of the war, when Oak Ridge’s secret was revealed and changed the world forever. Drawing from the voices and experiences of the women who lived and worked in Oak Ridge, *The Girls of Atomic City* rescues a remarkable, forgotten chapter of World War II from obscurity. Denise Kiernan captures the spirit of the times through these women: their pluck, their desire to contribute, and their enduring courage. “A phenomenal story,” and *Publishers Weekly* called it an “intimate and revealing glimpse into one of the most important scientific developments in history.” “Kiernan has amassed a deep reservoir of intimate details of what life was like for women living in the secret city Rosie, it turns out, did much more than drive rivets.” —The Washington Post

“By telling the little-known stories of six pioneering African American entrepreneurs, *Black Fortunes* makes a worthy contribution to black history, to business history, and to American history.”—Margot Lee Shetterly, *New York Times* Bestselling author of *Hidden Figures* Between the years of 1830 and 1927, as the last generation of blacks born into slavery was reaching maturity, a small group of industrious, tenacious, and daring men and women broke new ground to attain the highest levels of financial success. Mary Ellen Pleasant, used her Gold Rush wealth to further the cause of abolitionist John Brown. Robert Reed Church, became the largest landowner in Tennessee. Hannah Elias, the mistress of a New York City millionaire, used the land her lover gave her to build an empire in Harlem. Orphan and self-taught chemist Annie Turnbo-Malone, developed the first national brand of

hair care products. Mississippi school teacher O. W. Gurley, developed a piece of Tulsa, Oklahoma, into a "town" for wealthy black professionals and craftsmen that would become known as "the Black Wall Street." Although Madam C. J Walker was given the title of America's first female black millionaire, she was not. She was the first, however, to flaunt and openly claim her wealth—a dangerous and revolutionary act. Nearly all the unforgettable personalities in this amazing collection were often attacked, demonized, or swindled out of their wealth. Black Fortunes illuminates as never before the birth of the black business titan.

However, to confuse anyone” he admits during his professional years as a top manager he had to skip some democratic processes as the pressures of time specific critical decisions dictated. Kelemen, as clearly seen from his satirical story telling in this book, says he would listen eagerly to the opinions of his colleagues if there was enough time, “but this happened rather scarcely”.

The Untold Story of Exploration

A brilliant, lively account of the Black Renaissance that burst forth in Pittsburgh from the 1920s through the 1950s—“Smoketown will appeal to anybody interested in black history and anybody who loves a good story...terrific, eminently readable...fascinating” (The Washington Post). Today black Pittsburgh is known as the setting for August Wilson’s famed plays about noble, but doomed, working-class citizens. But this community once had an impact on American history that rivaled the far larger black worlds of Harlem and Chicago. It published the most widely read black newspaper in the country, urging black voters to switch from the Republican to the Democratic Party, and then rallying black support for World War II. It fielded two of the greatest baseball teams of the Negro Leagues and introduced Jackie Robinson to the Brooklyn Dodgers. Pittsburgh was the childhood home of jazz pioneers Billy Strayhorn, Billy Eckstine, Earl Hines, Mary Lou Williams, and Erroll Garner; Hall of Fame slugger Josh Gibson—and August Wilson himself. Some of the most glittering figures of the era were changed forever by the time they spent in the city, from Joe Louis and Satchel Paige to Duke Ellington and Lena Horne. Mark Whitaker’s Smoketown is a “rewarding trip to a forgotten special place and time” (Pittsburgh Post-Gazette). It depicts how ambitious Southern migrants were drawn to a steel-making city on a strategic river junction; how they were shaped by its schools and a spirit of commerce with roots in the Gilded Age; and how their world was eventually destroyed by industrial decline and urban renewal. “Smoketown brilliantly offers us a chance to see this other Black Renaissance and spend time with the many luminaries who sparked it...It’s thanks to such a gifted storyteller as Whitaker that this forgotten chapter of American history can finally be told in all its vibrancy and glory” (The New York Times Book Review).

WINNER OF THE NATIONAL JEWISH BOOK AWARD For more than a decade, a harsh Congressional immigration policy kept most Jewish refugees out of America, even as Hitler and the Nazis closed in. In 1944, the United States finally acted. That year, Franklin D. Roosevelt created the War Refugee Board, and put a young Treasury lawyer named John Pehle in charge. Over the next twenty months, Pehle pulled together a team of D.C. pencil pushers, international relief workers, smugglers, diplomats, millionaires, and rabble-rousers to run operations across four continents and a dozen countries. Together, they tricked the Nazis, forged identity papers, maneuvered food and medicine into concentration camps, recruited spies, leaked news stories, laundered money, negotiated ransoms, and funneled millions of dollars into Europe. They bought weapons for the French Resistance and sliced red tape to allow Jewish refugees to escape to Palestine. In this remarkable work of historical reclamation, Holocaust historian Rebecca Erbelding pieces together years of research and newly uncovered archival materials to tell the dramatic story of America's little-known efforts to save the Jews of Europe.

I am not a historian. I am simply an American citizen who grew up in Brooklyn, New York after my birth in the state of Virginia. My family, African-Americans from the south, decided to leave a life of farming and despair to move to New York to start anew, with nine children; three girls, six boys, and mother and father, who firmly believed that they could make a better life for all their family members. As the exception to the rule, I finished high school along with my brothers and sisters, and went on to college where I earned degrees in business and in law. This enabled me to become an officer and manager in the banking industry, where I served over twenty eight years. In addition I served a number of years as a businessman, served in state government, and served in the regular Army of the U.S. I have

written other books on business and banking that were published by and for the banking community as training and management material. I am currently working on a series of business books which will be introduced to members of the business community as a source of training for new small business owners and entrepreneurs.
