Born the son of a clergyman on October 18, 1662, Matthew Henry was ordained into the British Presbyterian Church where he held the pastorate in Chester from 1687 to 1712. He was widowed, married again and had 10 children, three whom died in infancy. Henry died in 1714. Henry began work on his commentary as "Notes On The New Testament" in 1704 and the monumental work was completed shortly before his death in 1714. Remembered as a caring pastor, a passionate lover of the Word of God, and a man of great personal integrity, Matthew Henry has left his mark on the hearts of countless Christians who seek a deeper

understanding of the riches that Scripture contains. This edition of Matthew Henry's Commentary on the Whole Bible uses the King James text and is abridged from the original six volumes while faithfully retaining all of the vibrant themes of that classic work. Everything here is in Matthew Henry's own words and nothing relevant to today's reader has been omitted.

LAST BOOK IN THIS SERIES. MORE THAN 900 FIVE STAR REVIEWS FOR SOCIAL MEDIA I just want my Grace back. I want the girl I discovered sending me dirty tweets on Saint Thomas. I want the girl who reluctantly gave in to my charms and let me boss her around. I want the girl who sent me to my knees and made me imagine what her fairy tale would look like with me in it. I want everything she ever wanted, and I want us to make it happen together. But the media needs more from us. More dirt. More pain. More payment for past transgressions. You can't change the past. And even though Grace is ready to put her demons to bed, mine are just starting to get restless. Because when you've silenced as many enemies as I have, you know that secret won't stay buried forever.

Lawrence Lessig, “the most important thinker on intellectual property in the Internet era”, masterfully argues that never before in human history has the power to control creative progress been so concentrated in the hands of the powerful few,

the so-called Big Media. Never before have the cultural powers- that-be been able to exert such control over what we can and can't do with the culture around us. Our society defends free markets and free speech; why then does it permit such top-down control? To lose our long tradition of free culture, Lawrence Lessig shows us, is to lose our freedom to create, our freedom to build, and, ultimately, our freedom to imagine.
