NCEA Business Studies

This book covers significant recent developments in the field of Intelligent Methods applied to eCommerce. The Intelligent Methods considered are mainly Soft Computing Methods that include fuzzy sets, rough sets, neural networks, evolutionary computations, probabilistic and evidential reasoning, multivalued logic, and related fields. There is no doubt about the relevance of eCommerce in our daily environments and in the work carried out at many research centers throughout the world. The application of AI to Commerce is growing as fast as the computers and networks are being integrated in all business and commerce aspects. We felt that it was time to sit down and see how was the impact into that field of low-level AI, i.e. softcomputing. We found many scattered contributions disseminated in conferences, workshops, journals, books or even technical reports, but nothing like a common framework that could serve as a basis for further research, comparison or even prototyping for a direct transfer to the industry. We felt then the need to set up a reference point, a book like this. We planned this book as a recompilation of the newest developments of researchers who already made some contribution into the field. The authors were selected based on the originality and quality of their work and its relevance to the field. Authors came from prestigious universities and research centers with different backgrounds.

Level 2 Mathematics and Statistics AME Workbook

This workbook provides additional NCEA style questions which enable students to establish a firmer foundation to their knowledge and application of physics concepts before leading them onto more complex challenges. Detailed solutions enabled students to gain confidence with the application of scientific and mathematical techniques, and develop good habits for future years.

E-Commerce and Intelligent Methods

NCEA Level Two Physics

This is a short, easy-to-use introduction to SCILAB, a comprehensive software system. It contains brief explanations of Scilab commands, programming and graphing capabilities. This book is intended for beginning and experienced science and mathematics students. Coverage includes Scilab commands used in courses that involve calculus, linear algebra, differential equations, graphics and more.

Science

This SciPAD is designed to meet the requirements of the New Zealand Curriculum and covers achievement standards 90940 (Mechanics), 90944 (Acids and bases) and 90948 (Genetic variation).

Level 1 Chemistry SciPAD Micro

Year 9 Science Learning Workbook

"The Level 2 Chemistry sciPAD workbook provides comprehensive coverage of the three Level 2 Chemistry externally assessed Achievement Standards AS 91164 (Chemistry 2.4 - Bonding, Structure, Properties and Energy), AS 91165 (Chemistry 2.5 - Organic Compounds) and AS 91166 (Chemistry 2.6 - Chemical Reactions). It is completely new from the ground up - not a rewrite like other Chemistry workbooks. The key features of the NCEA Level 2 Chemistry (externals) sciPAD are: Worked examples guide and encourage your students, enabling you to teach low-ability AND high-achieving students, while giving every student the opportunity to progress. NCEA-style questions are provided with 'walk-throughs' to guide students to structure extended answers. Hints are designed to get students moving towards the top of the 8-point NCEA marking system. Each unit ends with two pages of review activities to consolidate key terms and concepts. Each chapter ends with a full NCEA-style exam for reinforcement, practice and preparation. Downloadable digital versions and answers are provided for use on smart boards or through data projectors"--Publisher website.

Level 3 Accounting Learning Workbook

SciPAD Micro Level 1 Physics

"The Level 2 Biology sciPAD workbook provides comprehensive coverage of the three Level 2 Biology externally assessed Achievement Standards AS 91156 (Biology 2.4 - Biological processes at the cellular level), AS 91157 (Biology 2.5 - Genetic variation and change) and AS 91169 (Biology 2.7 - Gene expression)"--Publisher information.

Geography Skills for NCEA Level 2 Second Edition

Making the leap to Cambridge IGCSE can be a challenge - this brand new course leads learners smoothly through all three stages of Cambridge Secondary 1 Biology up to Cambridge Checkpoint and beyond, with crucial rigour built in from the outset so they can dive into Cambridge IGCSE Science study with confidence.

Level 2 Physics SciPAD

Level 2 Biology SciPAD

Geography Skills for NCEA Level Two has been revised specifically for the 2015 revision of the NCEA Level 2 external standard: Geography 2.4 (AS91243, Version 2) - Apply geography concepts and skills to demonstrate understanding of a given environment. New to this revised edition: ' An overview of the aspects of the standard. ' Guidance on the application of basic geography skills and conventions. ' Assistance in understanding the prescribed concepts or 'big ideas' of Geography that underpin the knowledge and skills necessary to interpret information about the world. ' An explanation of command terms used in Level 2 Geography examinations. ' Advice on how to be 'examination ready'. ' Updated figures and resource material. ' New Case Study. Geography Skills for NCEA Level Two is a New Zealand write-on textbook for students engaged in programmes of learning that develop geographic skills. For students preparing for NCEA Level Two Geography, the text provides a concise but authoritative development of the basic concepts and the more complex geographical skills required for success in the skills-based external standard and research internal standard. Geography Skills for NCEA Level Two builds upon the basic geographical skills introduced in the previously published Geography Skills for NCEA Level One.

SciPAD Book 2

This handbook presents the state of the art of quantitative methods and models to understand and assess the science and technology system. Focusing on various aspects of the development and application of indicators derived from data on

scholarly publications, patents and electronic communications, the individual chapters, written by leading experts, discuss theoretical and methodological issues, illustrate applications, highlight their policy context and relevance, and point to future research directions. A substantial portion of the book is dedicated to detailed descriptions and analyses of data sources, presenting both traditional and advanced approaches. It addresses the main bibliographic metrics and indexes, such as the journal impact factor and the h-index, as well as altmetric and webometric indicators and science mapping techniques on different levels of aggregation and in the context of their value for the assessment of research performance as well as their impact on research policy and society. It also presents and critically discusses various national research evaluation systems. Complementing the sections reflecting on the science system, the technology section includes multiple chapters that explain different aspects of patent statistics, patent classification and database search methods to retrieve patent-related information. In addition, it examines the relevance of trademarks and standards as additional technological indicators. The Springer Handbook of Science and Technology Indicators is an invaluable resource for practitioners, scientists and policy makers wanting a systematic and thorough analysis of the potential and limitations of the various approaches to assess research and research performance.

Physics 2 Workbook for NCEA Level 2

New Zealand Pathfinder: Science Year 9 provides complete coverage of the Level One NCEA Science Achievement Standards. It is designed so that students will gain an understanding of essential scientific concepts, principals, formulae and skills. The new edition is accompanied by a CD-ROM that will assist students in their study of Science with homework revision sheets, web links and interactive activities. CHANGES - REVISED SCIENCE PATHFINDERS Yr 9 & Yr 10 * Layout redesigned to give a more spacious feel to the pages * All diagrams replaced with scientifically accurate, professionally drawn images by New Zealand's top scientific illustrator, Tony Mander * Fonts replaced with contemporary, easier-to-read fonts * Many new photos are included * All text edited to increase the clarity and simplicity of the language * Terminology simplified wherever possible * All content checked for scientific accuracy * Complete coverage of all achievement objectives of the new New Zealand curriculum * Curriculum coverage matrices included * Existing topics and units aligned with the new curriculum * New units added on waves and climate change to meet expectations of the new curriculum * Glossaries and indexes expanded to better meet the needs of students. Schools will need to demonstrate to ERO that their courses

provide complete coverage of the achievement objectives of the new curriculum, so the curriculum coverage grid should engage the interest of teachers. All of the original topics and units are still there and have been linked to the new curriculum, so teachers do not need to be concerned that the topics that they have taught in the past will no longer be present in this highly popular series of books. Also included with each book is a CD, which contains: * Digital files for each page of the book * Students worksheets and tests * Enlarged versions of all diagrams, which can be used for teaching presentations or student handouts.
