Tempeh Production

Did you child just get hearing aids?Is your child feeling self-consciousness about their hearing loss?Bessie Needs Hearing Aids" is a children's book that will help children with hearing loss understand the process, and that they are not alone. Written and illustrated by a teenage girl who went through this process, so it will resonate with children just learning of hearing issues, or coping with wearing hearing aids. The book received numerous accolades so it was decided to make it available to all, in order to possibly help other children with hearing loss.When a child goes through the process of getting hearing aids, it is scary for them and difficult for a parent to explain. This is a story of Bessie, the bunny, who was so excited to start school only to have the kids get frustrated that she was not hearing them properly. Bessie visits the audiologist and learns about hearing aids and the happy results of getting hear aids.

Consumer Bulletin Annual

Explains how to reduce the amount of electricity consumed in a home by making the most efficient use of electrical appliances and equipment

BUYING GUIDE

Ebony

The Anarchist Cookbook will shock, it will disturb, it will provoke. It places in historical perspective an era when "Turn on, Burn down, Blow up" are revolutionary slogans of the day. Says the author "This book is not written for the members of fringe political groups, such as the Weatherman, or The Minutemen. Those radical groups don't need this book. They already know everything that's in here. If the real people of America, the silent majority, are going to survive, they must educate themselves. That is the purpose of this book." In what the author considers a survival guide, there is explicit information on the uses and effects of drugs, ranging from pot to heroin to peanuts. There i detailed advice concerning electronics, sabotage, and surveillance, with data on everything from bugs to scramblers. There is a comprehensive chapter on natural, non-lethal, and lethal weapons, running the gamut from cattle prods to sub-machine guns to bows and arrows.

Good Housekeeping

Resource added for the Paralegal program 101101.

"Taming Your New Refrigerator" is best read before you buy the refrigerator. It is meant to be an aid to anyone who is going to buy a new refrigerator or who has questions about one just purchased. It contains suggestions about what to look for as well as what to avoid when buying a refrigerator. People who would find this book helpful include people buying a new refrigerator, people remodeling a kitchen, landlords, home economics teachers and perhaps realtors. Chapter topics include buying a refrigerator, making sure house is suitable and handling "no-cool" situations. The book can help you avoid mistakes I see every day as a refrigerator repair technician. It is the result of years of experience repairing and seeing the same mistakes in installation, purchasing and care day-after-day. Many of these mistakes result in service calls, which cost you, the consumer, directly or indirectly. My belief is that over the life of the refrigerator you will save a lot more than the cost of this book if you use the information it contains.

Buying Guide 2001

This compact book contains the best buying advice from "Consumer Reports"

along with expert strategies for finding many products at the best prices. Includes advice for shopping online, by mail order, or in stores; lab test results; and a preview of the 2001 model-year vehicles.
