Insights on Galatians, Ephesians

This antiquarian book contains Alexandre Dumas's work "Vaninka". It was first published as part of his eight-volume series "Celebrated Crimes" (1839-40), and recounts the true story of brutal torture and execution in the city of St. Petersburg. A thrilling and authentic retelling of the notorious case, "Vaninka" is not to be missed by fans of the true-crime genre, and constitutes a must-have for collectors of Dumas's work. Alexandre Dumas (1802-1870) was a famous French writer. He is best remembered for his exciting romantic sagas, including "The Three Musketeers" and "The Count of Monte Cristo". Despite making a great deal of money from his writing, Dumas was almost perpetually penniless thanks to his lavish lifestyle. His novels have been translated into nearly a hundred different languages, and have inspired over 200 motion pictures. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing this antiquarian book in an affordable, modern, high-quality edition complete with a specially commissioned new biography of the author.

From New York Times bestselling author, David Morrell, comes a classic thriller that introduced the character of Rambo, one of the most iconic action heroes of the twentieth century. Called "the father of the modern action novel," FIRST BLOOD changed the genre. Although the book and the film adaptation have similarities, they are very different, especially its unexpected ending and its greater intensity. If you've only experienced the film, you're in for a surprise. Once they were soldiers. Rambo, the ragged kid whose presence in town is considered a threat. And Teasle, the Chief of Police of Madison, Kentucky. Both have been trained to kill: Rambo in Vietnam, Teasle in Korea. They learned different military tactics, different ways of death and survival in two different wars. Now, without warning, they are enemies in a civilian combat that becomes a chase through the woods and mountains and caves above the town. As we follow them, we understand that once a man has been trained as a killer, perhaps he is changed forever. Award-winning FIRST BLOOD was published in 1972, was translated into 26 languages, and has never been out of print. It was one of the first novels to deal with post-traumatic stress disorder. David's novelizations for RAMBO (FIRST BLOOD PART II) and RAMBO III are available as e-books. They're quite different from the films and include revealing introductions. See also David's RAMBO AND ME: THE STORY BEHIND THE STORY. Critical reactions: "A fine novel. . . . When Johnny comes marching home this time, watch out." —The New York Times Sunday Book Review "A first-rate thriller." —Newsweek "One of the finest chase novels you will ever read." —Minneapolis Tribune "A terrific thriller." —Saturday Review "One hell of a hard, fast novel." —John D. A Conspiracy of Bones

ONE OF USA TODAY'S "20 SUMMER BOOKS YOU WON'T WANT TO MISS" In the bestselling tradition of works by such authors as Susan Orlean and Mary Roach, a New York Times reporter and Pulitzer Prize finalist explores why so many

people—including herself—are obsessed with horses. It may surprise you to learn that there are over seven million horses in America—even more than when they were the only means of transportation—and nearly two million horse owners. Acclaimed journalist and avid equestrian Sarah Maslin Nir is one of them; she began riding horses when she was just two years old and hasn't stopped since. *Horse Crazy* is a fascinating, funny, and moving love letter to these graceful animals and the people who—like her—are obsessed with them. It is also a coming-of-age story of Nir growing up an outsider within the world's most elite inner circles, and finding her true north in horses. Nir takes readers into the lesser-known corners of the riding world and profiles some of its most captivating figures. We meet Monty Roberts, the California trainer whose prowess earned him the nickname "the man who listens to horses," and his pet deer; George and Ann Blair, who at their riding academy on a tiny island in Manhattan's Harlem River seek to resurrect the erased legacy of the African American cowboy; and Francesca Kelly, whose love for an Indian nobleman shaped her life's mission: to protect an endangered Indian breed of horse and bring them to America. Woven into these compelling character studies, Nir shares her own moving personal narrative. She details her father's harrowing tale of surviving the Holocaust, and describes an enchanted but deeply lonely upbringing in Manhattan, where horses became her family. She found them even in the middle of the city, in a stable disguised in an old townhouse and in Central Park, when she chased down truants as an auxiliary mounted patrol officer. And she speaks candidly of how horses have helped her overcome heartbreak and loss. Infused with heart and wit, and with each chapter named after a horse Nir has loved, *Horse Crazy* is an unforgettable blend of beautifully written memoir and first-rate reporting.

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is

such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. A Wrinkle in Time, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.
