Alcoholics Anonymous

In the latest thriller from New York Times bestseller Riley Sager, a woman returns to the house made famous by her father's bestselling horror memoir. Is the place really haunted by evil forces, as her father claimed? Or are there more earthbound—and dangerous—secrets hidden within its walls? What was it like? Living in that house. Maggie Holt is used to such questions. Twenty-five years ago, she and her parents, Ewan and Jess, moved into Baneberry Hall, a rambling Victorian estate in the Vermont woods. They spent three weeks there before fleeing in the dead of night, an ordeal Ewan later recounted in a nonfiction book called House of Horrors. His tale of ghostly happenings and encounters with malevolent spirits became a worldwide phenomenon, rivaling The Amityville Horror in popularity—and skepticism. Today, Maggie is a restorer of old homes and too young to remember any of the events mentioned in her father's book. But she also doesn't believe a word of it. Ghosts, after all, don't exist. When Maggie inherits Baneberry Hall after her father's death, she returns to renovate the place to prepare it for sale. But her homecoming is anything but warm. People from the past, chronicled in

House of Horrors, lurk in the shadows. And locals aren't thrilled that their small town has been made infamous thanks to Maggie's father. Even more unnerving is Baneberry Hall itself—a place filled with relics from another era that hint at a history of dark deeds. As Maggie experiences strange occurrences straight out of her father's book, she starts to believe that what he wrote was more fact than fiction.

Home Before Dark

Daniel Mulligan is tough, snarky, and tattooed, hiding his self-consciousness behind sarcasm. Daniel has never fit in—not at home in Philadelphia with his auto mechanic father and brothers, and not at school where his Ivy League classmates looked down on him. Now, Daniel's relieved to have a job at a small college in Holiday, Northern Michigan, but he's a city boy through and through, and it's clear that this small town is one more place he won't fit in. Rex Vale clings to routine to keep loneliness at bay: honing his muscular body, perfecting his recipes, and making custom furniture. Rex has lived in Holiday for years, but his shyness and imposing size have kept him from connecting with people. When the two men meet, their chemistry is explosive, but Rex fears Daniel will be another in a long line of people to leave him, and Daniel has learned that letting anyone in can be a fatal weakness. Just as they begin to break down the walls keeping them apart, Daniel is called home to Philadelphia, where he discovers a secret that changes the way he understands everything.

Broken Arrow

On 5 December 1965, the giant American aircraft carrier Ticonderoga was heading to Japan for rest and recreation for its 3,000 crew, following a month on 'Yankee Station' launching missions against targets in Vietnam. Whilst fighting a real conflict and losing men in conventional warfare, Tico's primary mission was Cold War nuclear combat with the Communist bloc. The cruise from the Yankee Station to Japan was used to practice procedures for Armageddon. Douglas Webster was a young pilot from Ohio, newly married and with seventeen combat missions under his belt. On that day in 1965 he strapped into an A-4 Skyhawk bomber for a routine weapons loading drill and simulated mission. After mishandling the maneuver, the plane and its pilot sunk to the bottom of the South China sea, along with a live B43 one-megaton thermonuclear bomb. A cover-up mission began. The crew was ordered to stay quiet, rumors circulate of sabotage, a damaged weapon and a troublesome pilot who needed 'disposing of'. The incident, a 'Broken Arrow' in the parlance of the Pentagon, was kept under wraps until 25 years later. The details that emerged caused a diplomatic incident, revealing that the U.S. had violated agreements not to bring nuclear weapons into Japan. Family members and the public only learnt the truth when researchers discovered archived documents that disclosed the true location of the carrier, hundreds of miles closer to land than admitted. Broken Arrow tells the story of Ticonderoga's sailors and airmen, the dangers of combat missions and shipboard life, and the accident that threatened to wipe her off the map and blow US-Japanese relations apart. For the first time, through previously classified documents, never before published photos of the accident aircraft and the recollections of those who were there, the story of carrier aviation's only 'Broken Arrow' is told in full.

In the Middle of Somewhere

A philosophical manual of media power for the network age. Evil Media develops a philosophy of media power that extends the concept of media beyond its tried and trusted use in the games of meaning, symbolism, and truth. It addresses the gray zones in which media exist as corporate work systems, algorithms and data structures, twenty-first century self-improvement manuals, and pharmaceutical techniques. Evil Media invites the reader to explore and understand the abstract infrastructure of the present day. From search engines to flirting strategies, from the value of institutional stupidity to the malicious minutiae of databases, this book shows how the devil is in the details. The title takes the imperative "Don't be evil" and asks, what would be done any differently in contemporary computational and networked media were that maxim reversed. Media here are about much more and much less than symbols, stories, information, or communication: media do things. They incite and provoke, twist and bend, leak and manage. In a series of provocative stratagems designed to be used, Evil Media sets its reader an ethical challenge: either remain a transparent intermediary in the networks and chains of communicative power or become oneself an active, transformative medium.

But there are many other roles these men and women fill. They take time out of their busy schedules to invest in the community in various ways. One of these methods is to visit schools, read to children, and answer any questions they may have about who policemen and women are, and what exactly they do. This story showcases one of these visits, and highlights real questions and answers shared between students and Deputy Knowles. She not only shares valuable information, but also makes the children laugh and feel comfortable. This tale is a valuable reminder that law enforcement officers not only keep us safe, but that they also genuinely care about us.

Small-Bore Rifles

The definitive book on steak has never been written-until now "Of all the meats, only one merits its own structure. There is no such place as a lamb house or a pork house, but even a small town can have a steak house." So begins Mark Schatzker's ultimate carnivorous quest. Fed up with one too many mediocre steaks, the intrepid journalist set out to track down, define, and eat the perfect specimen. His journey takes him to all the legendary sites of steak excellence-Texas, France, Scotland, Italy, Japan, Argentina, and Idaho's Pahsimeroi Valley-where he discovers the lunatic lengths steak lovers will go to consume the perfect cut. After contemplating the merits of Black Angus, Kobe, Chianina, and the prehistoric aurochs-a breed revived by the Nazis after four hundred years of extinction-Schatzker adopts his own heifer, fattens her on fruit, acorns, and Persian walnuts, and then grapples with ambivalence when this near-pet appears on his plate. Reminiscent of both Bill Bryson's and Bill Buford's writing, Steak is a warm, humorous, and wide-ranging read that introduces a wonderful new travel and food writer to the common table.

Perfect Imperfections

Post-Cinematic Affect is about what it feels like to live in the affluent West in the early 21st century. Specifically, it explores the structure of feeling that is emerging today in tandem with new digital technologies, together with economic globalization and the financialization of more and more human activities. The 20th century was the age of film and television; these dominant media shaped and reflected our cultural sensibilities. In the 21st century, new digital media help to shape and reflect new forms of sensibility. Movies (moving image and sound works) continue to be made, but they have adopted new formal strategies, they are viewed under massively changed conditions, and they address their spectators in different ways than was the case in the 20th century. The book traces these changes, focusing on four recent moving-image works: Nick Hooker's music video for Grace Jones' song *Corporate Cannibal*; Olivier Assayas' movie *Boarding Gate*, starring Asia Argento; Richard Kelly's movie *Southland Tales*, featuring Justin Timberlake, Dwayne Johnson, and other pop culture celebrities; and Mark Neveldine and Brian Taylor's *Gamer*.

My Ideal Bookshelf

The fascinating story of the American inventor and manufacturer who perfected the revolver Samuel Colt (1814-1862) first patented his "Colt" revolver in 1835 and thereby redefined the architecture of handguns. This stunning book is the first to present in detail the evolution of his most famous invention and to document the unsurpassed Colt firearms collections held

by the Wadsworth Atheneum. Colt designed his revolvers with an artistic sensibility--paying particular attention to form and beauty and juxtaposing colors and finishes to heighten the visual effects. He was also one of the first American manufacturers to secure celebrity endorsements and to commission paintings by renowned artists like George Catlin to promote his arms. Colt's standards for excellence, industrial foresight, and quest for market domination are explored in light of primary documents that reveal his constant battles to protect his patents. Essays discuss Colt's personal collection of historic firearms as well as the memorial collection of Colt-manufactured firearms, the relationship between art and commerce as they pertain to the inventor's career, and his international celebrity. Richly illustrated and beautifully produced, this volume presents the artistry of the firearms that Colt worked so diligently to perfect--as well as his promotional abilities that made a tremendous impact on American culture.

At just 19, Kurt Mueller had never expected to fall in love, least of all with a girl who was his enemy. As a pilot with the famed Jagdgeschwader 26 Fighter squadron based in France, Kurt had been looking forward to his first mission. That mission had come to an abrupt end when he had bailed out over Southern England in the summer of 1940. Now he was alone, with little prospect of return to France. His impulsive intervention to save a local farmer's wife from a rapist had elevated him to local hero status. When a German double agent provides him with fake identity papers, he feels secure. However it soon becomes clear that the Germans want something in return. Before long, Kurt is embroiled in a world of espionage-counter espionage, murder, and betrayal. He gets tangled up with a beautiful blonde killer with a hatred for the English, whose murderous actions bring unwelcome attention from MI5 agents. When the expected invasion of Britain is postponed and then cancelled Kurt's usefulness to the spy ring is questioned. And he finds himself desperate to stay one step ahead of both sides as events threaten to spiral out of control. *The White Silk Scarf* is a fast moving thriller set against

the background of Wartime Britain. It is a story where the dividing lines between right and wrong, good, and evil have become blurred. It is also the story of a trusting and naive 17 year old girl and a dashing young fighter pilot who fall in love at the worst possible time and the worst possible location.

Gun ownership has long been a hot-button topic in the United States, and the National Rifle Association has the reputation of being an organization of primarily politically conservative members. American Shooter provides a unique look at gun ownership, handgun bans, shooting sports, and the controversy over how to interpret the Second Amendment from the point of view of a liberal gun owner and enthusiast. Gerry Souter examines the history of firearms in the United States, from the settlers who carried matchlock muskets ashore at Jamestown to the citizens who purchase guns in record numbers today. Recent Supreme Court decisions that uphold the right to bear arms have galvanized citizens on both sides of the debate, making the gun issue hotter than ever. To provide a personal view, Souter weaves in tales of his own experiences with guns, including sport shooting as a young man, hunting and bonding with his father, and facing the smoking end of a muzzle as an international photojournalist. American Shooter is both a history and a personal journey that traces the path of American gun ownership culture from the Revolution to today. It recounts how the country has lived with guns from the flintlock hung over the fireplace to the concealed-carry, laser-sighted Glock semiautomatic pistol tucked away in the hidden pocket of a mom's purse.

There are people that tell you high school is the best time of your life. They lied. High school is horrible when you're like me and you're autistic. They think that because I don't talk and I seem to always be lost in my own world, I'm stupid or deaf. Some even think I'm retarded. I'm none of those things and I don't like that word. Just because I've got these issues, doesn't mean it's all I am. There's a lot more to me, but no one really takes the time to get to know it. At least that's how it was until Kayden. Kayden Walker is bad news. He spends his time making people that are different, like me, feel even worse about themselves and he does it with a smile. He's everything I don't need in my life, yet he's the one person I can't seem to live without. Underneath, there's more to him that he's afraid to let the rest of the world see. I've seen it and as I'm finding out, we're not so different after all
