with her grandfather and her friend Peter, and is homesick when she moves to Frankfurt. Will she make it back to her beloved mountains? Read it yourself with Ladybird is one of Ladybird's best-selling series. For over thirty-five years it has helped young children who are learning to read develop and improve their reading skills. Each Read it yourself book is very carefully written to include many key, high-frequency words that are vital for learning to read, as well as a limited number of story words that are introduced and practised throughout. Simple sentences and frequently repeated words help to build the confidence of beginner readers and the four different levels of books support children all the way from very first reading practice through to independent, fluent reading. Each book has been carefully checked by educational consultants and can be read independently at home or used in a guided reading session at school. Further content includes comprehension puzzles, helpful notes for parents, carers and teachers, and book band information for use in schools. Heidi is a Level 4 Read it yourself title, ideal for children who are ready to read longer stories with a wider vocabulary and are keen to read independently.

Affective Health and Masculinities in South Africa

Are Americans as well-off as they used to be? The answer affects everything from

product markets and housing sales to social tranquility and presidential (and local) elections. This volume examines what is happening to the American middle class. In a detailed and comprehensive analysis, Nancey Green Leigh tracks changes in the pattern of income distribution over a twenty-year period. While earnings have increased, there is a widening gap between what middle-level earnings can purchase and the cost of a middle standard of living. Due to the fact that this decline has not been experienced equally in all regions, separate analyses are reported for urban and rural locations, major census regions, and the largest states. To identify which workers have been most affected, Leigh compares earning trends by race, gender, educational level, industry of employment, part- or full-time status, and fringe benefit reciprocity. Rejecting short-term and demographic explanations, Leigh links the decline of the middle class to economic change and industrial restructuring. Leigh concludes her work by examining planning and policy prescriptions to improve the prospects of members and aspiring members of the middle economic class. She documents the decreasing ability of middle-level earners to purchase a middle standard of living and attributes the decline in part to failures in planning. Failures of planning, she observes, have contributed to the growing divergence between middle-level earnings and the middle standard of living. *Stemming Middle-Class Decline* provides comprehensive data and trends on workers, communities, regions, and the nation that all policymakers and government officials should read and examine with care.

African-American detective Eddie Berman and his partner Luis Vasquez are brought into the case of a homeless man ripped limb from limb in Central Park. At the crime scene, Eddie discovers a magical walking stick and the victim's disembodied head which informs him, "You are summoned!" This brings Eddie into a secret world of wizards, each bearing a staff made from the tree that rested in the Garden of Eden. He must quickly learn to wield enormous powers to confront a demon known as "the great evil" who can manifest in over 300 forms. In majestic Central Park, a site of power built by wizards, Eddie must uncover a rogue sorcerer and defeat an age-old creature that threatens not only the world, but Eddie and his partner's families as well. With tongue firmly in cheek, award-winning author Arjay

Lewis takes you into a world of fable, adventure, and lore in one of the most magical cities on earth: New York.

The Widow's Husband

The Lives Around Us is a series of short meditations for individuals or groups. It can serve as a Lent book or at any time of the year. Its purpose is to tap into the present public interest in nature connection and encourage this to be formed in concert with Bible reading and regular (daily or weekly) prayer. Each chapter begins with descriptive reflection on a specific creature (animal, plant, fungus, mineral) followed by one or two thoughts about what we can do for them practically. There is a Bible reading and then a section that encourages prayer and sometimes a prayerful activity.

Famed novelist Jack Court has a secret: the wealthy writer is a serial killer. He has another hidden treasure, a small antediluvian creature that dwells within him and gives him youth, strength and a superhuman ability to avoid capture. On his trail is Sheriff Neil Trajan, who is certain Court murdered his wife three years earlier. When the author is hit by a careless driver, the creature leaves him and through a series of events, ends up with lowly writer, Harold Godwine. Godwine begins to write faster and better, but is troubled by dreams of blood. However, Jack is healing- and devolving into something not quite human. As Court seeks the young author, he leaves a trail of destruction, pursued by Trajan and his FBI associate, Bill

Morris. Will Jack Court do anything to retrieve the companion that inspires his dark desires?

Reece was a guitar player and a singer at his grandfather's pub in Dublin until someone betrays his secret. Once he was a happy and carefree young man, who finds himself on the streets and homeless. He meets a handsome stranger, who gives him hope that the world still has people with compassion, until he discovers the man may have compassion, but he is no softie. Conner hires Reece as his houseboy. Much to his shock, Conner Braden isn't only a garda (Irish police officer), but he is also a Dom! The two men are complete opposites, but that doesn't stop Reece from wanting to win his heart. What happens when Master Braden blurs the lines between employer and Dom when Reece is his employee? **AUTHOR'S NOTE:** This book contains mild BDSM elements including restraints, blindfolds, and spanking. While the story uses characters from The Irish Runaway Series, you can read this book as a standalone.

The decision to write the book started almost ten years ago when running my medical private practice. The level of lack of medical knowledge was alarming. Many people believed flue or influenza, as it is called, is caused by the cold wind or ingestion of cold foodstuffs or iced (cold) drinks. This summed it all. Many of my clients attributed their ailments to beliefs in witchcraft. The medical information I tried imparting to them entered one ear and exited the other. They saw nothing wrong combining their traditional medicines of herbs and ashes, and modern medicine. To them, death and diseases are caused by witchcraft. This motivated me to dig deeper and uncover the truth about the belief.

[If only] Bran would stop acting weird. Probably he had a perfectly reasonable explanation for everything. I just couldn't imagine what it would be. When Britt's older brother, Bran, lands a summer job house-sitting for the Marquises, an elderly couple, it seems like a great opportunity. Britt and Bran have moved to Florida so their mother can finish college, and the house-sitting income will allow their mom to quit her job and take classes full-time. Having never lived in a real house before, Britt is thrilled. There's only one problem: Britt starts to suspect her family isn't supposed to be there. She's been noticing that Bran is acting weird and defensive -- he hides the Marquises' mail, won't let anyone touch the thermostat, and discourages Britt from meeting any of the neighbors. Determined to get to the bottom of things, Britt starts investigating and makes a startling discovery -- the Marquises aren't who Bran has led her and their mom to believe. So whose house are they staying in, and why has Bran brought them there? With unexpected twists

Identifying the body in the morgue as her husband was easier than Sarah Tuttle thought it would be. Moving on with her life is much harder, made even more difficult by the fact that her husband just won't leave her alone. Allan Tuttle stepped out of his comfort zone to become the hero in his own story, and everything spiraled out of control from there. Now, he has to convince the police he isn't dead and that he hasn't killed anyone, not to mention save his faltering marriage, even while his wife continues to deny knowing who he is. A body

discovered just outside of town, is identified as Allan Tuttle by his wife. Detective David Parker, the lead investigator on the case, is conflicted by his need to be the good cop, his desire to get to know the new widow and his urge to hurt the creep who keeps claiming to be her dead husband. As their focuses change from what was to what is, what will be is as blurred as the truths leading them there. In the end when their truths collide, will they be able to live with the result?

Bamboos are extraordinary in the ability to transform a garden, adapt to inhospitable surroundings, survive with little care and, most of all, surprise and delight the people who view them. Too long the exclusive pleasure of those with tropical and subtropical gardens, this hand-picked selection allows gardeners in cooler climates to experience the wonder and infinite variety of these magical plants. Besieged by winter wet, summer drought and bitter, drying winds, Paul Whittaker's garden has been a rigorous testing ground. In the first part of the book his compelling anecdotes, experiences and case histories illuminate how bamboos perform in different places, draw attention to their idiosyncratic nature, and highlight their geographical origins. A further section describes the bamboo's unique physical structure and growing habits. These fascinating insights give you the knowledge you need to choose the right bamboo for your site and grow it successfully. At the heart of the book are detailed plant descriptions that join with striking photographs and evocative illustrations to highlight each plant's characteristics. Culms available in all the colors of the rainbow may also be striped, grooved, wrinkled or knobbed. Leaves range from glaucous needles to huge plates of deep green with striking variegations. There are bamboos perfect for creating shady groves and hedges, and others that deserve stand-alone treatment as

In the phase transitions among the solid, liquid, and gaseous forms of water, we see a profound demonstration of how properties at the molecular scale dictate the behavior of the bulk material. As ice is heated beyond its melting point, new avenues for molecular motion become open to the energy being added. Upon entering the gas phase, the water molecules can explore new territory, unavailable to the liquid or solid. These transformations can be seen as a shifting balance between the forces that bind the molecules and the thermal energy that excites these motions--a window through thermodynamics on the intricate mechanisms that drive chemistry.

Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it

shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.
